

The Library and Information Service will be presenting its 6th Library Research Week from 30 July to 3 August 2018. This year the theme is Research in Action. Emerging Stellenbosch University researchers and students will be equipped with practical knowledge of research essentials such as their literature search strategy, writing a research proposal, copyright issues and managing research data.

For the first time, Tygerberg Campus will have their own version of Research Week in the brand new Medicine and Health Sciences Library.

We are excited to be partnering with Emerald Publishing to bring you the Research Week Emerald Competition!

Please complete the Emerald Quiz, to win one of the following fantastic prizes:

***1st: Fitbit | 2nd: Echo dot | 3rd: Emerald goodies**

Launch of Research Week

Setting the Scene

Guest speaker: Prof Jonathan Jansen, Distinguished Professor, Education Policy Studies: "Research as an Intellectual activity—the ethics and politics of chasing research outputs."

Prof Jansen will also lead a panel discussion on the highs and lows of 100 years of research at Stellenbosch University.

The other panel members are Dr Therina Theron (Research and Innovation), Prof Michael Cherry (Botany and Zoology), Prof Albert Grundlingh (History), Prof Nico Gey van Pittius (Medicine and Health Sciences) and Ms Zuziwe Nyareli (PhD student, Botany and Zoology).

The discussion will be followed by a cocktail function.

Date: Monday 30 July

Time: 14:00-17:00

Venue: STIAS
