Guidelines

- A Master's thesis must be examined by two examiners. Both examiners must have a Master's degree.
- The independent internal examiner should be appointed at Stellenbosch University. Extraordinary lecturers/professors and research fellows at SU are considered internal examiners.
- The independent external examiner should be appointed at any other university or research institution in South Africa. In both cases, their professional affiliation must be stated.
- A person who was previously associated with or appointed at SU must not have been in service of this university for a period of at least three years before that person can be appointed as an external examiner.
- In exceptional cases, an independent international examiner may be considered; however, supervisors must provide a thorough academic motivation for such an appointment.
- **IMPORTANT:** Only electronic versions of the thesis will be sent to examiners, who are welcome to print their own hard copies.
