

CENTRE FOR APPLIED ETHICS

ANNUAL REPORT 2013

1. ABOUT THE CENTRE

The Centre for Applied Ethics (CAE) is an interdisciplinary research, teaching, and service institution of Stellenbosch University, based in the Philosophy Department. It reports to the Faculty Board of Arts and Social Sciences. The Centre does work on its own, but also accommodates three units, viz. the Unit for Bioethics, the Unit for Environmental Ethics and the Unit for Business Ethics and Public Integrity.

The first part of this report deals with the general activities of the Centre as such. The reports of the different Units of the Centre follow this report. The report therefore has the following sub-divisions:

General report of the CAE: pp. 1-5

Report of the Unit for Bioethics pp. 6-13

Report of the Unit for Business Ethics and Public Integrity: pp. 14-16

Report of the Unit for Environmental Ethics: pp. 17-

2. GOVERNING BODY DURING 2013

Prof. A.J. Leysens (Representative of the Centre for International and Comparative Politics, *Chair*), **JP Hattingh (or his representative)** (Dean), **A.A. van Niekerk** (Director of the Centre and Head: Unit for Bioethics), **Mr C Maasdorp**, representative of the Centre for Knowledge Management and Decision-making), **S Hall** (Representative: Unit for Environmental Ethics), **G. Woods or substitute** (Director of the Anti-corruption Centre), **S. van der Berg** (Representative of the Faculty of Economic and Management Sciences), **W.P. 4. COMMUNITY INTERACTION

Apart from the above popular publications and presentations, the Director participated in a number of radio and television programs on ethically related matters. These programs were broadcast on RSG Monitor (17 January; 17 May), Cape Talk (1 November; 11 November), and Radio Pretoria (7 November).

5. OTHER GENERAL ACTIVITIES OF THE CENTRE

5.1 Teaching

5.1.1 In 2013 we saw the first intake of MPhil students in the newly created one year program, following on the PGD in Applied Ethics. There was a significant intake, particularly as far as biomedical ethics is concerned. As was expected, only one student was, at the end of 2013, ready to graduate, confirming our expectation that the program is too demanding for normal students to complete in a year's time.

5.1.2 The following ethics-related PhD was completed and the degree bestowed at the end of 2013:

H Niemand: *The autonomy of culture: a cultural-philosophical analysis*. PhD. 227 pp. December 2013. (Supervisor: Prof. AA van Niekerk)

5.1.3 In the early part of 2013, prof. van Niekerk was approached by a group of US medical students to offer a special course in the history of ideas for all interested at Tygerberg. This course was offered during the month of August (four sessions of two hours each.) It was attended by about 60 medical students, who were all also duly evaluated. The feedback was very positive.

5.1.4 Prof. van Niekerk was also asked to offer a four hour session on philosophy and ethics in business, part of the Senior Executive Diploma Program of USB.

5.2 Visitors in 2013

The Centre received a number of eminent academic visitors in the course of 2013. Prof. Paul van Tongeren from the Radboud University in Nijmegen, Netherlands, took care of an entire Honours course and delivered a lecture on Nietzsche's ethics. Afterwards he worked as a fellow at STIAS. Prof. Philippe van Haute of Nijmegen also visited and lectured. Prof. Ian Hacking, one of the best known philosophers in the world, was a STIAS Fellow and lectured on autism in the department. We also had interactions with another STIAS fellow, prof. Vladimir Safatle from Sao Paulo, with whom we discussed future liaisons.

5.3 Ethics committees and services

Personnel of the Centre serve as members of a variety of ethics committees/institutional review boards at Stellenbosch University and elsewhere.

5.31. Membership in and service to the following committees continued:

- The Ethics Committee of the Medical Research Council (MRC) (AA van Niekerk). Prof. van Niekerk's term in this capacity came to an end in 2013 and was, on his request, not renewed.
- The Ethics Committee of Subcommittee A (Humanities & Social Sciences) of Stellenbosch University's Research Committee (Dr L Horn [chair] and dr T de Villiers-Botha)

5.3.2 In September 2013, prof. van Niekerk was appointed by the Minister of Health as a member of the National Health Research Ethics Council (NHREC), the highest policy making body for research ethics in South Africa. He was at the same time appointed as member of the NHREC's committee for the revision of the comprehensive Guidelines for Biomedical Research, which is set to be published in 2014 or early in 2015.

5.3.3 Prof. van Niekerk also serves as chairperson of the Senate Research Ethics Committee (SREC), the body that appoints, accredits and oversees all the ethics committees currently operative in the various faculties of the university.

5.3.4 Prof. van Niekerk also serves as chair of the Board of Directors of the Ethics Institute of SA (EthicsSA), whose former CEO and current Executive Director, prof. Willem Landman, serves as professor extraordinaire in the Centre and Department and renders very value services to the Centre. Prof. Deon Rossouw, current CEO of EthicsSA, has also been appointed professor extraordinaire in the department and Centre in the course of 2012.

5.3.5 Members of the Centre (Van Niekerk, Woermann, Hattingh and Smit) will from 2014 be involved in a new MPhil in Futures Studies, to be created at the Institute of Futures Studies at the Bellville Park.

5.3.6 Dr Woermann is a member of the Governing Committee for the Anticorruption Centre for Education and Research (ACCERUS); Stellenbosch University.

6. SPONSORSHIP

Mediclinic has confirmed its generosity towards the Centre by renewing its sponsorship of the Unit for Bioethics for the next two years (R100 000 per year for two years). This sponsorship has been running since 2007, and is highly appreciated by the Centre. We convey our sincere gratitude to Mediclinic Southern Africa.

Annual Report 2013

1. RESEARCH

1.1 Completed research projects

- 1.1.1** *Ethical problems related to newer developments in genetic reproductive technologies, with special; reference to human enhancement and transhumanism* (AA van Niekerk, S Hall, A Palk, C Verster & L Franken). Prof. van Niekerk, dr Hall and these three students, have been, and still are investigating this problem from a variety of perspectives. In 2013, much attention was paid to the problematic of transhumanism. Andrea Palk's MA thesis, which was completed in the course of 2013, dealt extensively with this issue, particularly the question as to the validity and appropriateness of human dignity arguments in the debate. **The thesis was rewarded with the Faculty Medal for the best Master's thesis in the Faculty of Arts and Social Sciences in 2013.**
- 1.1.2** *The history and social functions of bioethics in South Africa.* (AA van Niekerk). Following on the book chapter written by Van Niekerk & Benatar about this and published in 2012, Prof. van Niekerk was also invited to write the chapter on Bioethics in South Arica in the *Global Bioethics Ethics Atlas* which was published in 2013.
- 1.1.3** *The intellectual self-image of the medical profession and the efficacy of communication between doctors and patients.* (B Gerber) This is (in broad terms) the topic of Berna Gerber's doctoral dissertation which was successfully completed and the degree awarded in 2013.
- 1.1.4** *Ethical problems related to providing reproductive assistance to HIV-infected patients.* (CEM Oliphant). Clothilde Oliphant did this research which was completed by means of an MPhil thesis.
- 1.1.5** *Moral issues in the evaluation of the impact of telemedicine on the doctor-patient relationship.* (L Acton). An MPhil thesis was completed emanating from this research.
- 1.1.6** Disability and biomedical enhancement (AA van Niekerk). A book chapter was published on this topic.

1.2 Ongoing research projects

- 1.2.1** *Ethical problems related to newer developments in genetic reproductive technologies, with special; reference to human enhancement and transhumanism* (AA van Niekerk, S Hall, A Palk, C Verster & L Franken)

- 1.2.2 *A critical appraisal of the views of Michael Sandel on enhancement* (AA van Niekerk). Article in accredited journal forthcoming in 2014.
- 1.2.3 *The legitimacy of race as variable in the deliberations of IRB's*. (AA van Niekerk) Article forthcoming in 2014.
- 1.2.4 *Moral perspectives of covert research* (AA van Niekerk). Article in accredited journal forthcoming in 2014.
- 1.2.5 *The ethical management of genetic information about hereditary cancer treatments* (I Loftus). MPhil thesis forthcoming.
- 1.2.6 *A moral and philosophical evaluation of the idea of moral bioenhancement* (A Palk) Dissertation forthcoming.
- 1.2.7 *The ethics of psychopharmacology* (D Stein & AA van Niekerk). The authors were invited to contribute to the *Oxford Handbook of Psychiatric Ethics*, which will be published by Oxford University Press in 2015.
- 1.2.8 *Exploitation in global context*. (AA van Niekerk). Following on his chapter about South African Bioethics, Van Niekerk was invited to write a book chapter in this regard for the forthcoming *Encyclopedia of Bioethics*, to be published by Springer in 2015.

Articles and/or dissertations on all of these topics are in preparation.

2. RESEARCH OUTPUTS

2.1 Articles in peer-reviewed journals

5. SERVICE DELIVERY

- 5.1 Prof. van Niekerk has, from September 2013, been appointed as a member of the National Health Research Ethics Council, as well as a member of the Committee for the revision of National Guidelines for Ethical Biomedical Research.

5.2 Prof. van Niekerk has been appointed as a member of the Biosafety and Biosecurity Committee of the Academy of Science of South Africa (ASSAf), and he is also a member of the panel that is doing a consensus study on the level of biosafety and security in South Africa.

6. OTHER GENERAL ACTIVITIES OF THE UNIT

6.1 Bioethics Discussion Group

A very significant addition to the activities of the Unit in 2013 was the creation, since the beginning of the year, of a discussion group on bioethical issues. This was primarily intended as an intellectual sounding board and think tank of prof. van Niekerk's team of postgraduate students who work in the field. Anybody with an interest in the subject, however, is welcome to attend. The group kicked off with a series of talks on the human enhancement problematic which is currently the main topic of research in the Unit. Meetings are roughly every three weeks for about 90 minutes to two hours at a time. Somebody is asked to make a presentation or read a paper, after which extensive discussion follows. It is hoped that this activity will in future lead to larger conferences and to publications of individuals or the team. The secretariat is very admirably and efficiently handled by ms Andrea Palk.

The meetings, discussants and topics for 2013 were as follows:

7 March 2013	Enhancement: General	Dr Susan Hall
27 March	Disability and enhancement	Prof. AA van Niekerk
18 April	Cognitive enhancement: the use of Ritalin	Dr C Verster (US)
9 May	Radical enhancement: transhumanism	Ms Andrea Palk
1 August	The ethical ramifications of non-therapeutic circumcision	Prof. Daniel Sidler (US)
22 August	The ethics of presumed consent for organ donation	Dr Malcolm de Roubaix (US)
25 September	The ethics of sexuality	Ms Maritza Breitenbach

6.2 Evaluation of Research Ethics Committees in Africa

Prof van Niekerk was, in the course of 2013, asked to act as specialist adviser to the firm Clinical Consultants and Development Works (CC&DW), a consultant firm that was contracted by the Africa Program of the European and Developing Countries Clinical Trials Partnership (EDCTP) to evaluate the efficacy and functioning of all the EDCTP supported research ethics committees in Africa. This was a huge task. The report was finalized in the course of October, and prof. van Niekerk was asked to present the findings as key note speaker at the EDCTP Conference, held in Antwerp on 28 November 2013. The report was accepted and very well received.

7. APPOINTMENT

Dr Lyn Horn (MBChB, MPhil, PG Dip and PhD), who attained her MPhil and PhD in Bioethics at Stellenbosch University, and currently serves as the chair of the Research Ethics Committee for the Humaniora at Stellenbosch, was appointed extraordinary senior lecturer in the Department and Centre from 2013.

8. RECOGNITION

Prof. van Niekerk was again rated by the NRF in the course of 2012, and his rating was improved from a B3 to a B2 from 2013 until 2018. The B2 category specifically indicates the following: “All or the overriding majority of reviewers are firmly convinced that the applicant enjoys considerable international recognition for the high quality and impact of his/her recent research outputs”.

2.5 M.Phil in Environmental Management

Prof. Hattingh is member of an interfaculty Programme Committee that has launched a Mphil Programme in Environmental Management in January 2001. Departments participating in the programme are Philosophy (Environmental Ethics), Geology, Geography and Environmental Studies, Public and Development Administration, Public Law, and Conservation Ecology. Since December 2002 a steady stream of students graduated from this program.

Within the framework of this programme Prof. Hattingh took responsibility for a module in Environmental Ethics until 2012. From 2013 his duties in this regard has been taken over by Dr. Sue Hall.

2.5 M.Phil. in Sustainable Development

In February 2003 the Sustainability Institute under the leadership of Prof. Mark Swilling and Ms. Eve Annecke launched an innovative MPhil Programme in Sustainable Development in collaboration with the Department of Public and Development Management of the University of Stellenbosch. Having been part of the team planning the Programme, Prof. Hattingh is currently one of the co-teachers in the module on Leadership and Ethics for Sustainable Development. Prof. Hattingh will continue with his responsibilities in this context from 2013 while serving as Dean of the Faculty of Arts and Social Sciences.

2.6 Activities around UNESCO's COMEST

1. At the end of 2011 the second term of Prof Hattingh as member of COMEST (The World Commission on the Ethics of Science and Technology), an advisory body of UNESCO came to an end. COMEST falls under UNESCO's Division for the Ethics of Science, and consists of 18 members that are selected to be representative of the world community on the one hand, and expertise in the ethics of various fields on the other hand. Members are appointed to COMEST in collaboration with the official delegations of member countries of UNESCO and their countries' Ministries of Science and Technology. COMEST advises the General Assembly of UNESCO on ethical issues, and conduct, on request, research for the General Assembly on ethical

issues. At the beginning of 2004, Prof. Hattingh was appointed as member of COMEST for a period of 4 years. On the recommendation of the South African Government, Prof. Hattingh has been invited by COMEST to serve for another term of four years, i.e. from 2008 – 2011. During 2005 Prof. Hattingh was appointed as Rapporteur in the Executive Board of COMEST, a position in which he served until the end of 2011. Since May, 2008, Prof. Hattingh was invited to Chair a Working Group on Environmental Ethics to take the lead in preparing a report on The ethical implications of global climate change.

2. During 2012 Prof Hattingh was invited by the Director General of UNESCO to serve as an associate member of COMEST, which means that he can still be invited to support the activities of COMEST.

2.7 Membership of Editorial Boards

Prof. Hattingh currently serves on the Editorial Board of the following journals:

1. *Southern African Journal of Environmental Education* (co-editor of the section on Environmental Ethics)
2. *Journal of Agricultural and Environmental Ethics* (member of Editorial Board, since 2007).
3. *Journal for Ethics Education* (This is a Springer on-line journal that was recently established by Prof. Henk ten Have, Director of the Center for Healthcare Ethics, Duquesne Universiteit, Pittsburgh, Pennsylvania. He was invited to become member of Editorial Board in 2011 – and the Journal was established in 2012.)
