# 26/27 Global Fellowship Scheme

## ABOUT

The University of St Andrews Global Fellowship Scheme provides prestigious awards to enable talented scholars from around the globe to spend up to one month at St Andrews. Global Fellows will have the opportunity to visit in person and engage virtually with our scholarly community throughout the 2026/27 academic year. Global Fellows will be able to undertake a course of research and study, explore potential collaborations, enhance existing relationships, advance research work, and find the space to think in an inspirational environment.

## ELIGIBILITY

Applicants should be recognised as a significant scholar in their field or an emerging leader who has made a contribution to original research that extends the frontier of knowledge. Candidates must hold an established academic position, have completed a PhD degree, and be employed in a university or research institute based outside of the UK.

## CONDITIONS

Global Fellows will be provided with tailored support from the Global Office, a stipend during their visit, self-catered accommodation, return airfare, and airport transfers to and from St Andrews. Visits take place between **1 August 2026** and **31 July 2027**.

# Testimonials

“ It was a great privilege for me to be awarded a Global Fellowship. It shaped my view of diversified research and ushered in opportunities for collaborations. It was a pleasure to spend a highly scholarly time with renowned researchers in the School of Physics and Astronomy. My stay was packed with collaborative discussions with various academics whose research is similar or complementary to mine. I look forwards to continued collaboration beyond the Global Fellowship tenure. ”

**Dr Peter Ndangili, The Technical University of Kenya**

“ My time at St Andrews as a Global Fellow has been transformative. I spent a month here discussing my own research, and starting several fascinating new collaborative projects with scholars. This is a special place, surrounded by history, and I leave it energised and full of new ideas! ”

**Professor June Cotte, Western University**

“ My stay at St Andrews has been truly rewarding. There is a genuine sense of teamwork here, and it is an especially inspiring environment in which to think, debate, and formulate new questions. From the gardens to the classrooms, the University's infrastructure is excellent, and the Global Fellowship Scheme provides everything necessary for an academic visitor to enjoy working, studying, and sharing research full-time in a context of deep commitment to knowledge. ”

**Dr María Aimaretti, University of Buenos Aires**
