GRADUATE ENGINEER OPPORTUNITY

Engineer in Training (EIT)

Solis ZA Pty Ltd is pleased to offer an exciting opportunity for a recently qualified Mechatronic or Mechanical Engineering graduate to join our team as an Engineer in Training (EIT).

Solis ZA specializes in advanced separation and inspection technologies for the food and agricultural industries, including Magnetic Separation, X-ray Inspection, and Optical Sorting systems. Our solutions are deployed across Africa and internationally, supporting leading processors in achieving the highest standards of product quality, operational efficiency, and food safety.

About the Role

As an Engineer in Training, you will receive structured, hands-on training in the assembly, commissioning, testing, and support of high-tech inspection and sorting systems. You will work closely with experienced engineers and gain practical exposure to real-world applications across multiple industry.

This position is ideal for a motivated and technically curious individual who is eager to develop strong engineering and problem-solving skills in a fast-paced, innovation-driven environment.

Candidate Requirements

- Degree in Mechatronic or Mechanical Engineering
- Strong analytical and problem-solving abilities
- Willingness to travel for installations and client support
- Proactive attitude with a strong desire to learn
- Good communication and teamwork skills

How to Apply

Graduates who are passionate about engineering innovation and technology are encouraged to apply. Please send your CV and supporting documents to:

mark@solisza.co.za

We welcome referrals — if you know a suitable candidate, please feel free to share this opportunity with them.
