General Information

1. History and functions of the Faculty of Arts and Social Sciences

In the context of a developing country such as South Africa, universities play an important role in the process of knowledge creation. The Faculty of Arts and Social Sciences is fully aware of the extent of this challenge and strives continuously through its teaching and learning, research, community interaction and management strategies to make a significant contribution to a knowledge-based society and economy in Africa.

As a faculty, we place immense value on creating a space where the diversity of people and ideas can flourish. This also helps us to further develop the various research fields in our environment. We therefore make a concerted effort to employ staff and admit students to our Faculty who contribute to our goal of creating a diverse environment where all forms of knowledge can develop and prosper.

1.1 History, structure and mission

History

When Stellenbosch University first opened its doors in 1866, it was known as the Stellenbosch Gymnasium. The Arts Department of the Gymnasium was founded eight years after the Gymnasium was established. By 1879 about 69 students were enrolled for a BA degree at the Gymnasium.

In February 1916, a law called "De Universiteit van Stellenbosch-wet" (Law no. 13 of 1916) was published and came into effect on 2 April 1918. This led to the institution's name change to Stellenbosch University. The law which led to the name change in 1918, also made provision for a Faculty of Arts. After being known as such for many years, in 2008, the Faculty's name was changed to the Faculty of Arts and Social Sciences.

Structure

The Faculty of Arts and Social Sciences consists of 18 departments that represent three broad disciplinary groups, namely Arts, Languages and Social Sciences:

Arts:

- Drama
- Music
- Visual Arts

Languages:

- African Languages
- Afrikaans and Dutch
- Ancient Studies
- English
- General Linguistics
- Modern Foreign Languages

Social Sciences:

- Geography and Environmental Studies
- History
- Information Science
- Journalism
- Philosophy
- Political Science
- Psychology
- Social Work
- Sociology and Social Anthropology

Mission

The mission of the Faculty of Arts and Social Sciences is the discovery, transfer and application of knowledge for the promotion of the human sciences. Our aim is also to enrich and enhance the quality of life of the people of this region, country and continent.

1.2 Research and community interaction

Research

In 2017, the Faculty of Arts and Social Sciences already had 73 NRF (National Research Foundation)-rated researchers. The following research and service centres are currently situated within the Faculty:

- Africa Open Institute for Music, Research and Innovation
- Centre for Applied Ethics
- Centre for Bible Interpretation and Translation in Africa
- Centre for Chinese Studies
- Centre for Comic, Illustrative and Book Arts (CCIBA)
- Centre for Community Psychology Services
- Centre for Geographical Analysis
- Centre for International and Comparative Politics
- Centre for Knowledge Dynamics and Decision-making
- Centre for Regional and Urban Innovation and Statistical Exploration (CRUISE)
- Centre for Research on Evaluation, Science and Technology (CREST)
 - Including Centre for Excellence in Scientometrics and Science, Technology and Innovation Policy (SciSTIP)
- Centre for Science and Technology Mass Communication (CENSCOM)
- Graduate School of Arts and Social Sciences
- Research Alliance for Disaster and Risk Reduction (RADAR)
- HUMARGA (the computer-user area for students in the Faculty of Arts and Social Sciences)

Community interaction

The Faculty of Arts and Social Sciences does not only focus on teaching and research, but community interaction also forms an integral part of our faculty. Visit our website at www.su.ac.za/en/faculties/arts for more information on how we serve the community. Some of the projects that the Faculty is involved in are:

- Art in Schools Initiative of NSCAD University/Stellenbosch University;
- Cloetesville Community Health Centre Mental Health Service-Learning Project;
- Financial literacy education programme for social work service users;
- Interpreting service;
- The Certificate Programme in Music Literacy; and
- Welgevallen Community Psychology Clinic.

You are automatically a member of the Faculty's student society if you are registered as a student for a degree programme in the Faculty of Arts and Social Sciences. For more information on the society/committee, contact them electronically:

- E-mail address: bask@sun.ac.za

3. How to communicate with Stellenbosch University

3.1 Prospective students

- The University allocates an application number to you (for example APP/1234567) when you apply to study at the University.
- The application number is a unique number to identify you and to simplify future communication with the University regarding all your programme applications in a given year.
- Use your application number every time you communicate with the University

3.2 Current or former Stellenbosch University students

- The University allocates a student number to you when you are admitted to a programme and register at the University.
- The student number is a unique number to identify you and to simplify future communication with the University.
- Use your student number every time you communicate with the University.

3.3 Contact details for enquiries about your studies, bursaries and loans, and residence placements

E-mail: info@sun.ac.za

Telephone: 021 808 9111

Visit Stellenbosch University's website at www.su.ac.za.

4. Language at the University

Stellenbosch University (SU) is committed to engagement with knowledge in a diverse society and through the Language Policy aims to increase equitable access to SU for all students and staff. Multilingualism is promoted as an important differentiating characteristic of SU. Afrikaans, English and Xhosa are used in academic, administrative, professional and social contexts. Pedagogically sound teaching and learning are facilitated by means of Afrikaans and English.

More information concerning language at SU is available on the website www.su.ac.za/language.

5. General regulations for academic complaints procedure

5.1 Academic complaints are matters concerning:

- the content and presentation of modules;
- the learning environment and resources; and
- the assessment of modules.

You must follow the academic complaint procedure when consultation between you and your lecturer and/or the departmental chairperson cannot resolve the problem.

5.2 If you have an academic complaint, you must follow the procedure set out below:

- a) You must complete the complaint form as soon as possible and draw the attention of the particular class representative to the complaint.
- b) Complaint forms are available from:
 - Faculty societies;
 - The Office of the Dean;
 - The Office of The Students' Representative Council; and
 - The website of SU.
- c) The class representative must discuss the problem with the lecturer concerned. You can also be involved in this consultation if you so choose.
- d) If the problem cannot be resolved satisfactorily, the class representative must take up the matter with the departmental chairperson. You can also be involved in the consultation with the departmental chairperson if you so choose.
- e) The departmental chairperson will report back to the class representative once the matter has been discussed with the lecturer concerned.
- f) If the matter cannot be satisfactorily resolved, the departmental chairperson must refer it, with the necessary documentation, to the Student Feedback Committee. At this stage all those involved can submit further documentation.

5.3 Administrative complaints concern matters that have to do with registration, subject choices, student fees, etc., and you must take it up with the Faculty Administrator of the Faculty of Arts and Social Sciences or, if necessary, with the Registrar.

6. Regulations for Dean's Concession Assessments

Please consult Part 1 (General Rules) of the Yearbook for information about DCAs.

7. Completion of modules through Unisa or another university

7.1 You can complete a maximum of 48 credits in total through Unisa or another university for degree purposes in the Faculty of Arts and Social Sciences. Of these 48 credits, you can complete a maximum of 24 credits at final-year level.

7.2 To qualify you need to:

- provide very good reasons with supporting evidence; and
- have preferably taken and failed the subject(s) or module(s) concerned at SU.

Please note that this rule does not apply to subjects, modules or credits completed within the framework of formal agreements with overseas universities, faculties or departments.

7.3 If you apply for readmission to SU in this Faculty, recognition will be given, at the most, for Unisa credits to the equivalent of three subjects at SU. Only 24 of the equivalent credits may be at the final-year level.

7.4 If you complete a module or modules through Unisa that is presented by the Faculty of Economic and Management Sciences, the above requirements apply, with the addition that third-year modules must have been taken and failed at SU.

8. Recognition of subjects/modules/credits completed elsewhere

The following regulations apply in the Faculty of Arts and Social Sciences if you want to get recognition of credits for subjects that you passed at another university:

- For three-year B programmes the Faculty recognises a maximum of 126 credits at first-year level;
- For four-year B programmes (BA in Visual Arts, BMus and B in Social Work) the University rule applies that you can pass only half the total credits required for the programme at another university;
- For both three-year and four-year B programmes the requirement is that you must obtain at least all the credits of the last two years of study at Stellenbosch University; and
- For credits obtained at another university to be recognised, the contents of the subject-modules concerned, must be relevant and equivalent at the year levels for which the credits are to be recognised for your programme concerned.

9. Simultaneous registration for more than one year of study in a subject for graduation purposes

- a) In accordance with the decision of the Executive Committee (Senate) that students may take more than one year of a subject simultaneously for degree purposes, you may take a **maximum of two years** of a subject simultaneously, provided that
 - you consult the department concerned in this regard; and
 - you meet the corequisite, prerequisite and prerequisite pass requirements of the module(s) concerned. If these requirements do not allow the years to be taken simultaneously, the concession may not be granted under any circumstances.
- b) The Teaching Committee may consider, in highly exceptional cases, your simultaneous taking of **three years** of a subject for degree purposes, provided that your justification for the request is given; and that the request complies with the above requirements.
- c) In addition to the requirements set out in this Yearbook Part you must also note the particular requirements that may apply within the Faculty and within particular departments. You can obtain this information from the departmental chairpersons of the various departments.

10. Absence from academic activities and interruption of studies

The Faculty of Arts and Social Sciences (FASS) applies the rules for absence from academic activities and interruption of studies as stated in Part 1 of the Yearbook (General Rules) under the sections dealing with these topics. If you wish to apply for leave of absence or interruption of studies, you should consult the FASS registrar's division (askfass@sun.ac.za).

11. Readmission requirements

Please consult Part 1 (General Rules) of the Yearbook for information about readmission requirements.

Undergraduate Programmes

1. Undergraduate enrolment management

In order to meet the targets of Council with regard to the total number of students, the fields of study and diversity profile of the student body of Stellenbosch University, it is necessary to manage the undergraduate enrolments at the University. The University's total number of enrolments is not only managed to accommodate its available capacity, but we are committed to the advancement of diversity.

The University's undergraduate enrolment is managed within the framework of the national higher-education system. We strive toward a well-grounded cohesion between national and institutional goals, respecting important principles such as institutional autonomy, academic freedom and public responsibility. The following points of departure apply:

- High academic standards are maintained for the expansion of academic excellence.
- The University attempts to maintain and continuously improve high success rates.
- The University is committed to rectification, social responsibility and training future role models from all population groups.
- The University strives to expand access to higher education especially for students from educationally disadvantaged and economically needy backgrounds who has the academic potential to be successful in their studies at the University.

Take note that, even if you meet the minimum requirements of your chosen programme, you will not necessarily gain admission to the University, due to the strategic and purposeful management of enrolments as places are limited.

All undergraduate programmes in the Faculty of Arts and Social Sciences are selection programmes. Selection takes place according to the guidelines and procedures of the Faculty of Arts and Social Sciences. The average marks required for admission to each programme are minimums and meeting these minimum requirements does not guarantee placement in a programme. Typically, the cut-off point for placement in both mainstream and extended curriculum programmes is higher than these minimums.

Consult the "Admission Requirements and Selection Criteria for Undergraduate Programmes", which can be found at <https://files.su.ac.za/public/faculty-arts-and-social-sciences/documents/2025-10/2026-enrolment-management-fasspdf.pdf>.

You can find more details about the selection procedures and admission requirements for undergraduate programmes in this chapter and on the Faculty's website at www.su.ac.za/en/faculties/arts.

1.1 National Benchmarking Tests

Prospective undergraduate students who completed the National Senior Certificate (NSC), Independent Examination Board (IEB (South Africa)) or South African Comprehensive Assessment Institute (SACAI) qualification normally do not have to write the National Benchmark Tests (NBTs). However, some programmes may require NBTs, so please consult the Yearbook entry for your chosen programme.

School of Tomorrow applicants must write NBTs. Please do so before **30 September** of the year before you intend to study at Stellenbosch University.

Consult the NBT website at www.nbt.ac.za or the University's website at www.su.ac.za for more information on these tests.

The University can use the results of the National Benchmark Tests for the following purposes:

- Selection
- Curriculum development

2. Subjects for admission to programmes in the Faculty of Arts and Social Sciences

You must have a National Senior Certificate (NSC) or school-leaving certificate from the Independent Examination Board (IEB) as certified by Umalusi with a mark of at least 4 (50%) in four of the school subjects from the list below for admission to the Faculty of Arts and Social Sciences.

- Accounting
- Agricultural Sciences
- Business Studies
- Consumer Studies
- Dramatic Arts
- Economics
- Engineering Graphics and Design

- Geography
- History
- Information Technology
- Languages (one language of learning and teaching at a higher education institution and two other recognised language subjects)
- Life Sciences
- Mathematics
- Mathematical Literacy
- Music
- Physical Sciences
- Religion Studies
- Visual Arts

3. General requirements for Bachelor's degrees, diplomas and certificates

You can find more information on the programme content and structure of your chosen undergraduate programme later in this chapter. Consult the chapter "Undergraduate Subjects, Modules and Module Contents" later in this Yearbook Part for the particular requirements that apply to specific subjects.

Take note of the following requirements if you would like to register for a Bachelor's degree, diploma or certificate:

- a) If you have passed one or more modules at another university, Stellenbosch University (SU) may, under certain conditions, give you recognition for the module(s). If, however, these modules are not recognised for degree/diploma/certificate purposes at the university concerned, then the module(s) will also not be recognised at SU.
- b) Module(s) that are successfully completed at other universities will be recognised on individual merit.
- c) Submit the contents of the modules for recognition to the SU department concerned or consult the relevant faculty officer in the Admin A building. The Department of Psychology has specific requirements with regard to the recognition of modules. Please consult the Department in this regard.
- d) In addition to the abovementioned requirements, a maximum of half the total credits required for your degree/diploma/certificate may be recognised:
 - o on the basis of your study at another university; or
 - o from a degree you already obtained at Stellenbosch University on condition that you must take new majors.

Consult section 8 in the chapter "General Information" for more information on the recognition of subjects/modules/credits that you completed elsewhere.

- e) Consult section 7, "Completion of modules through Unisa or another university", in the chapter "General Information" in this Yearbook Part for more information. You must study a minimum of two years at Stellenbosch University to obtain a Bachelor's degree at SU.

3.1 Choice of subject combinations

Consult the diagram on the fold-out page in the back of this Yearbook Part to choose subject combinations for your specific programme. The diagram indicates which subjects may not be taken together (exclusion subjects).

Also consult the programme content and structure of the various programmes in this chapter for further requirements regarding subject combinations.

4. General regulations for extended curriculum programmes (ECPs)

4.1 The Faculty of Arts and Social Sciences offers academic support to all students. We make provision for the following within the framework of academic support:

- a) An extended curriculum programme (ECP) which entails that:
 - o the first academic year is extended across two years;
 - o you are given additional academic support; and
 - o you follow specific compulsory modules that ensure you are better prepared for your graduate studies.

- b) In Year 1 you take two elective subjects from the first year of the programme offering of your choice, each with an academic support component. The support component of each elective subject is presented as an extra subject-specific tutorial.

As an ECP student you must take the following compulsory modules:

- o Academic Literacies 112 (16 credits) in the first semester;
 - o Critical Thinking 142 (12 credits) and Disciplinary Worlds 152 (12 credits) in the second semester, and;
 - o Knowledge Skills 174 (12 credits) for the entire year.
- c) In Year 2 you take the remaining first-year subjects from your programme offering, as well as Working with Concepts 113 (12 credits) and Research Literacy 153 (12 credits).
- d) In Year 3 you follow the ordinary second-year programme, and in Year 4 the ordinary third-year programme.

4.2 Admission to the extended curriculum programme is considered discretionarily. Your socio-economic status and the availability of places are considered during admission.

4.3 The ECP is not an option for the following degree programmes:

- B in Social Work;
- BA (Drama and Theatre Studies);
- BA (Music);
- BMus;
- BA in Visual Arts;
- BA in Political, Philosophical and Economic Studies (PPE);
- BA (Law); and
- BA (Sport Science).

4.4 You will not be allowed to register for the ECP at the beginning of the second semester.

4.5 For any enquiries, please contact Prof Taryn Bernard:

Room 461, 4th floor, Arts and Social Sciences building
Tel: 021 808 2146 E-mail: tbernard@sun.ac.za

4.6 The structure of the extended curriculum programme (ECP) is set out as follows:

Historical year of study	Subjects
First year (first registration from 2025 onwards)	You take two subjects from the standard programme offering and an additional tutorial in each of those subjects. The modules to register for are: Knowledge Skills 174 Academic Literacies 112 Critical Thinking 142 Disciplinary Worlds 152
Second year	You take the remaining first-year subjects from the standard programme's first-year offering. The modules to register for are: Working with Concepts 113 Research Literacy 153
Third year	The same as for the standard second year of the programme
Fourth year	The same as for the standard third year of the programme

5. Bachelor's degree programmes

The programmes of the Faculty of Arts and Social Sciences are broadly divided into two categories, namely general programmes and specialised programmes. General programmes offer you a broad background for various careers in related fields while specialised programmes are focused on specific careers.

The following diagrams offer a breakdown of the Faculty's programmes.

5.1 BA (Humanities)

Specific Admission Requirements

- A National Senior Certificate (NSC) or school-leaving certificate from the Independent Examination Board (IEB) as certified by Umalusi with **a mark of at least 4 (50%)** in each of the four school subjects from the list of school subjects under "Undergraduate Programmes" in this Yearbook Part.
- An average final mark of 63% in the NSC or the IEB school-leaving certificate (excluding Life Orientation) for the three-year mainstream programme.
- Home Language – code 4 (50%).
- First Additional Language – code 3 (40%).
- Mathematics – code 4 (50%) OR Mathematical Literacy – code 6 (70%) (*only if you will be taking Organisational Informatics as a subject*).

Consult section 4 in this chapter for more information on the extended curriculum programmes.

Programme Content and Structure

The subjects of the programme BA (Humanities) are set out below according to the three groups, followed by a breakdown of the specific modules.

You can find the contents of these subjects and modules, as well as the specifications concerning the selection of subjects and modules, in the chapter "Undergraduate Subjects, Modules and Module Contents" in this Yearbook Part.

Your chosen subject combination depends on timetable considerations. The subjects and modules that you choose may not clash on the class, test and examination timetables. In addition, consult the schematic outline for permissible subject combinations on the fold-out page at the back of this Yearbook Part.

Group 1 Human Thought, Language, Culture and Art	Group 2 People and Society	Group 3 Half third-year-level subject (24 credits); offered on third-year level only
African Languages Afrikaans and Dutch Afrikaans Language Learning Ancient Cultures Applied English Language Studies Basic Xhosa (<i>offered on first-year level only</i>) Chinese English Studies French General Linguistics German Sign Language Studies (<i>offered on first-year level only</i>) Spanish (<i>offered on first- and second-year level only</i>) Theatre Studies Visual Studies Xhosa	Geo-Environmental Science/ Geography and Environmental Studies History Organisational Informatics Philosophy Political Science Psychology Social Anthropology Socio-Informatics Sociology	318(24) Sign Language Linguistics (General Linguistics 1 and 2 are prerequisite pass modules) <i>Consult the table of contents for module contents.</i>

Please note:

Spanish can only be taken up to second-year level. You may not register concurrently for French 178 and Spanish 178, but you may register concurrently for French 188 (post-Matric French) and Spanish 178. Only a limited number of students can be admitted to Spanish 178 annually, depending on the resources available in the Faculty.

The content of the BA in the Humanities is presented at three consecutive year levels:

First-year level

At this level content is taught which is introductory in nature and which forms the foundation for the contents that are presented on subsequent levels.

At first-year level you take 5 subjects plus Knowledge Skills 172. Your subject choice is as follows:

Compulsory Module		Credits
Knowledge Skills 172		1 x 6 credits
Choose		
2 subjects	Group 1	2 x 24 credits
2 subjects	Group 2	2 x minimum 24 credits
1 subject	Group 1 or Group 2	1 x minimum 24 credits

Please note:

The credit value for the subject Geo-Environmental Science is higher than 24 credits.

Second-year level

At this level, contents are still taught which do not necessarily concern specific human sciences aspects of Southern African realities, but which are directly relevant to an understanding of the problematic aspects of this reality.

In practicals and tutorials, the relevance of these contents to an understanding of problematic human sciences aspects of the Southern African reality is illustrated systematically.

In your second year, you take four subjects that you took at first-year level.

Note the following:

- In order to gain access to Applied English Language Studies 214 or 244, you need to pass either General Linguistics 178 or English Studies 178.
- You may take Sociology and/or Social Anthropology at second-year level if you passed Sociology at first-year level.

Third-year level

The contents at this level are focused on problematic human sciences aspects of Southern African realities.

In each of the two majors, you do a certain amount of work that is focused on enhancing the content integration within and between the two major subjects, as well as the overall coherence of the programme.

The work that forms part of the process of integrated assessment, can take on various forms: (interdepartmental) seminars, written assignments, practicals of various kinds, etc.

Your subject choice for your third year is as follows:

Choose	
2 subjects <i>(that you took in your first and second year)</i>	Group 1 or Group 2 or 1 subject from Group 1 and 1 subject from Group 2
Half third-year-level subject or the equivalent of a half third-year subject based on the amount of credits (minimum of 24 credits) <i>(that you took in your first and second year)</i> . <i>(If you passed General Linguistics 178 and 278, you can take Sign Language Studies 318(24) as a half third-year-level subject.)</i>	Group 1 or Group 2 or Group 3

Presentation

The programme is presented by means of regular lectures, complemented with tutorials and/or practical classes.

Please note:

If you are taking Sociology 3 as a major subject, then 314 (first semester) and 364 (second semester) are compulsory modules. Students then choose between Sociology 324 and 333 in the first semester and choose between 344 and 345 in the second semester. Please note that 324 and 333 in the first semester and 344 and 345 in the second semester cannot be taken together due to timetable clashes.

Programme Composition

FIRST YEAR (126 – 134 CREDITS)

In your first year, you take five subjects plus Knowledge Skills 172. Your subject choice is as follows:

5.2 BA (Language and Culture)

Specific Admission Requirements

- A National Senior Certificate (NSC) or the school-leaving certificate from the Independent Examination Board (IEB) as certified by Umalusi with **a mark of at least 4 (50%)** in each of the four school subjects from the list of school subjects at the back of this Yearbook Part.
- An average final mark of 63% in the NSC or the IEB school-leaving certificate (excluding Life Orientation) for the three-year mainstream programme.
- Home Language – code 4 (50%).
- First Additional Language – code 4 (50%).

Consult section 4 in this chapter for more information on the extended curriculum programmes.

Programme Content and Structure

This programme consists of subjects and modules, chosen from two groups, in which you can study and learn languages as well as cultural studies and relevant contextual content. In your first year, you should take at least one language which you have not taken before.

The subjects of the programme are set out below according to the groups that help guide your choice, followed by a breakdown of the specific modules. You can find the contents of these subjects and modules, as well as the specifications concerning the selection of subjects and modules, in the chapter "Undergraduate Subjects, Modules and Module Contents" in this Yearbook Part. Your chosen subject combination depends on timetable considerations. The subjects and modules that you choose may not clash on the class, test and examination timetables. In addition, consult the schematic outline for permissible subject combinations on the fold-out page at the back of this Yearbook Part.

Group A	Group B
• Afrikaans Language Learning 179 • Basic Xhosa (only offered at first-year level) • Biblical Hebrew • Chinese • French • German 178 • Greek • Latin • Sign Language Studies (only offered at first-year level) • Xhosa 178	• Afrikaans and Dutch • Afrikaans Language Learning 189 • African Languages • Ancient Cultures • English Studies • German 188 • History • Philosophy • Psychology • Theatre Studies • Visual Studies • Xhosa 188

At first-year level, you take five subjects plus Knowledge Skills 172. General Linguistics 178 is compulsory at first-year level. Please be sure to choose at least two language subjects in your first year that can be taken in your second year too. At least one of the language subjects you take in your second year must be taken in your third year as well so that your subject combination can adhere to the requirements of the programme structure.

Your subject choice at **first-year level** is as follows:

Compulsory Module/ Subject		Credits
Knowledge Skills 172		1 x 6 credits
General Linguistics 178		1 x 24 credits
Choose		
1 subject	Group A	1 x 24 credits
1 subject	Group B	1 x 24 credits
2 subjects	Group A and/or Group B	2 x 24 credits

Please note:

- Please ensure that you choose your first-year subjects in such a way that you are able to meet the subject requirements in the second and third years.
- Please check the table at the back of the Yearbook Part for permissible subject combinations.
- Subject combinations with timetable clashes will not be permitted.

In your **second year** you continue with **four** subjects from Group A and/or Group B that you took in your first year.

Your subject choice is as follows:

Choose		Credits
2 subjects	Group A	2 x 32 credits
2 subjects	Group A and/or Group B	2 x 32 credits

Group A	Group B
• Afrikaans and Dutch • Afrikaans Language Learning • African Languages • Ancient Cultures • Applied English Language Studies • Biblical Hebrew • Chinese • English Studies • French • General Linguistics • German • Greek • Latin • Xhosa	• History • Philosophy • Psychology • Theatre Studies • Visual Studies

Please note:

- In order to gain access to Applied English Language Studies 214 or 244, you need to pass either General Linguistics 178 or English Studies 178.
- Afrikaans Language Learning can only be taken up to the second-year level. It is not necessarily offered every year.

In your **third year** your subject choice is as follows:

Choose	
1 subject (that you took in your first and second years)	Group A
1 subject (that you took in your first and second years)	Group A or Group B
Half third-year subject or the equivalent of a half third-year subject based on the amount of credits (minimum of 24 credits) (that you took in your first and second years, with the exception of Sign Language Studies which can only be taken as half a third-year subject if you have passed General Linguistics at second-year level)	Group A or Group B

Group A	Group B
• Afrikaans and Dutch • African Languages • Ancient Cultures • Applied English Language Studies • Biblical Hebrew • Chinese • English Studies • French • General Linguistics • German • Greek • Latin • Sign Language studies (half subject only) • Xhosa	• History • Philosophy • Psychology • Theatre Studies • Visual Studies

Please note:

General Linguistics 278 is a pass prerequisite for Sign Language Studies.

Presentation

The programme is presented by means of lectures, complemented with tutorials and/or practical classes. Consult the entries of the departments concerned in the chapter "Undergraduate Subjects, Modules and Module Contents" for module contents.

 - Afrikaans Home Language 60% *or*
 - English Home Language 60% *or*
 - Afrikaans First Additional Language 75% *or*
 - English First Additional Language 75%

Duration of programme

Four years

Programme structure

The BDatSci programme comprises several focal areas, each of which spans four years. For each year, there is a set of compulsory modules shared by all the focal areas. There may also be further compulsory and/or elective modules in each year, which are specific to the individual focal area. You will register for BDatSci in the faculty that offers your chosen focal area. After completing your BDatSci degree, you will be able to apply for a master's programme, since BDatSci is a four-year qualification at honours level (NQF level 8).

Focal areas

The objective of focal areas is to help you choose a specific career focus within the BDatSci programme. The focal area is not a programme, and the module combinations are only recommendations for you to make more focussed module choices. The module choices in the tables describing each focal area fit in with lecture and assessment timetables. However, there are compulsory modules that should be taken within each focal area.

There are eight focal areas within the BDatSci programme, one of which resides within the Faculty of Arts and Social Sciences. The eight focal areas of BDatSci are given below with an indication of the faculty yearbook part in brackets that contains the programme structure of each focal area:

- Statistical Learning (Faculty of Economic and Management Sciences);
- Analytics and Optimisation (Faculty of Economic and Management Sciences);
- Behavioural Economics (Faculty of Economic and Management Sciences);
- Computer Science (Faculty of Science);
- Applied Mathematics (Faculty of Science);
- Statistical Physics (Faculty of Science);
- Geoinformatics (Faculty of Arts and Social Sciences) and;
- Statistical Genetics (Faculty of AgriSciences)

Further information can be obtained by emailing datascience@sun.ac.za.

Changing focal areas in the BDatSci programme

For information on transferring (articulating) between different focal areas in the BDatSci programme, please consult the relevant appendix in the latest version of Part 10 of the Yearbook (Faculty of Economic and Management Sciences).

Focal area: Geoinformatics

Home Department: Geography and Information Science
Faculty of Arts and Social Sciences

Geoinformatics is the science and technology dealing with the structure and character of spatial information, its capture, its classification and qualification, its storage, processing, portrayal, and dissemination.

Module combinations in the focal area: Geoinformatics

Please note that some of the modules in this table are in other faculties than the Faculty of Arts and Social Sciences. The module contents for these modules are in the Yearbook parts of the faculties concerned.

5.4 BA (Drama and Theatre Studies)

Specific Admission Requirements

- An average final mark in the NSC or the IEB school-leaving certificate (excluding Life Orientation) – 65%
- Home Language – code 5 (60%).
- First Additional Language – code 4 (50%).

Please note: This programme does not have an option for the extended curriculum programme.

Final selection for this programme is done by means of a personal audition/interview.

Programme Content and Structure

From the first-year level you must choose between two specialisations, namely acting and performance training and technical and management training. In each of the two practical major subjects you do a certain amount of work that is designed to enhance the content integration within and between these two major subjects and the overall coherence of the programme. This work, which forms part of the process of integrated assessment, can take on various forms such as seminars, written assignments, various forms of practical work, etc.

Presentation

The contents of the programme are divided into:

- Theatre Studies (theory, acquisition of knowledge and insight);
- Theatre Arts (theory and skills: combination, application and acquisition); and
- Theatre Skills (theory, acquisition of skills).

Theatre Skills and Theatre Art require contact teaching in the form of working in small groups. Given the nature of the theatre and media industries and to broaden your range of career opportunities, it is important to the Department that you are fluent either in spoken English or spoken Afrikaans.

Programme Composition

The subjects and modules of the programme BA (Drama and Theatre Studies) are set out below. You can find the contents of these subjects and modules, as well as the specifications concerning the selection of subjects and modules, in the chapter "Undergraduate Subjects, Modules and Module Contents" in this Yearbook Part.

Your chosen subject combination depends on timetable considerations. The subjects and modules that you choose may not clash on the class, test and examination timetables. In addition, consult the schematic outline for permissible subject combinations on the fold-out page at the back of this Yearbook Part.

5.5 BA (International Studies)

Specific Admission Requirements

- A National Senior Certificate (NSC) or the school-leaving certificate from the Independent Examination Board (IEB) as certified by Umalusi with **a mark of at least 4 (50%)** in each of the four school subjects from the list of school subjects under "Undergraduate Programmes" in this Yearbook Part.
- An average final mark of 63% in the NSC or the IEB school-leaving certificate (excluding Life Orientation) if you are registered for the three-year mainstream programme.
- English Home Language – code 4 (50%).

OR

English First Additional Language – code 5 (60%).

Consult section 4 in this chapter for more information on the extended curriculum programmes.

Programme Content and Structure

This is a three-year, interdisciplinary programme that is focused on developing a broad insight for the complexity of international matters. The programme focuses on the interaction of economic considerations, cultural and identity matters, the importance of historical context as well as the learning of a modern foreign language. This is done by means of a focused selection of modules and subjects that work together to support the programme-specific major subject Political Science.

The programme consists of six subjects in the first year, six subjects in the second year (with French or German) or five subjects (with Chinese), and two major subjects (with elective modules of 24 credits) in the third year. The programme leads to postgraduate study in Political Science, History or other fields of study but is subject to postgraduate programme-specific requirements.

Programme Composition

The subjects and modules of the programme BA (International Studies) are set out below. You can find the contents of these subjects and modules, as well as the specifications concerning the selection of subjects and modules, in the chapter "Undergraduate Subjects, Modules and Module Contents" in this Yearbook Part.

Your chosen subject combination depends on timetable considerations. The subjects and modules that you choose may not clash on the class, test and examination timetables. In addition, consult the schematic outline for permissible subject combinations on the fold-out page at the back of this Yearbook Part.

5.6 B in Social Work

If you want to follow the B Social Work programme you must be selected. The reason for this is that the number of places available to new first year students is limited. Only 100 students will be accepted into the programme. The selection policy is available from the Department of Social Work.

Specific Admission Requirements

- A National Senior Certificate (NSC) or the school-leaving certificate from the Independent Examination Board (IEB) as certified by Umalusi with **a mark of at least 4 (50%)** in each of the four school subjects from the list of school subjects under "Undergraduate Programmes" in this Yearbook Part.
- An average final mark of 63% in the NSC or the IEB school-leaving certificate (excluding Life Orientation).
- At least code 5 (60% - 69%) in one of the following subjects:
 - Afrikaans Home Language
 - English Home Language
 - Afrikaans First Additional Language
 - English First Additional Language
- The following process will be followed for admission, in accordance with the programme's selection policy, which is available from the Department:
 - Applicants with an average above 70% for the NSC or the IEB school-leaving certificate (excluding Life Orientation) will be considered first.
 - Applicants with an average between 65% and 70% for the NSC or the IEB school-leaving certificate (excluding Life Orientation) will be considered next if there are places available.
 - If there are further places available, applicants with an average between 63% and 65% for the NSC or the IEB school-leaving certificate (excluding Life Orientation) will be considered.
- A police clearance Certificate not older than six months is required for doing this programme. You must submit this certificate at registration.

Programme Content and Structure

This programme focuses on generic social work and is professionally oriented in that it provides you with the necessary knowledge, develops your skills and promotes a certain attitude to enable you as a beginner to practise in accordance with the requirements of the South African Council for Social Service Professions.

During each year of study, you must pass the theory and practice education modules of social work independently to continue with the next academic year. In your first year Sociology and Psychology are corequisite modules (See the chapter "Undergraduate Subjects, Modules and Module Contents" in this Yearbook Part for the definition of a corequisite module). You may only take Social Work 4 if you comply with the provision as set out by the Department. In each of the two major subjects (theory and practice education) you must undertake an amount of work which is aimed at increasing the integration of the contents within and between the two major subjects, as well as promoting the coherence of the programme as a whole. This work that forms part of the process of integrated assessment, can take on various forms such as written assignments, tests, different types of practical work, etc.

Presentation

Your chosen subject combination depends on timetable considerations. The subjects and modules that you choose may not clash on the class, test and examination timetables. In addition, consult the schematic outline for permissible subject combinations on the fold-out page at the back of this Yearbook Part.

Programme Composition

The subjects and modules of the programme B in Social Work are set out below. You can find the contents of these subjects and modules, as well as the specifications concerning the selection of subjects and modules, in the chapter "Undergraduate Subjects, Modules and Module Contents" in this Yearbook Part.

- Mathematics – code 4 (50%)

OR

Mathematical Literacy – code 6 (70%)

Consult section 4 in this chapter for more information on the extended curriculum programmes.

Programme Content and Structure

The content of the BA in Human Resource Management programme is presented over three consecutive years. The programme leads to postgraduate study, but you have to meet the admission requirements to continue with postgraduate studies.

If you do not have an African language as home language or did not take an African language in Grade 12, you must select Basic Xhosa as a subject. If you do have an African language as home language or took it as Grade 12 subject, then you must choose Afrikaans or English Studies as a subject.

Presentation

The programme is presented by means of formal lectures per subject per week, complemented by practical sessions.

Programme Composition

The subjects and modules of the programme BA (Human Resource Management) are set out below. The entries of the departments concerned in the chapter "Undergraduate Subjects, Modules and Module Contents" of this Yearbook Part provide the contents of individual modules. Consult the Yearbook Part 10 for the contents of modules of the subject that is presented by the Faculty of Economic and Business Management Sciences (marked with *).

Your chosen subject combination depends on timetable considerations. The subjects and modules that you choose may not clash on the class, test and examination timetables. In addition, consult the schematic outline for permissible subject combinations on the fold-out page at the back of this Yearbook Part.

Please note:

If you, as a BA student, are selected for postgraduate study in the Department of Industrial Psychology, then you will migrate to the BComHons degree.

5.8 BA (Music)

Specific Admission Requirements

- A National Senior Certificate (NSC) or school-leaving certificate from the Independent Examination Board (IEB) as certified by Umalusi with a **mark of at least 4 (50%)** in each of the four school subjects from the list of school subjects under "Undergraduate Programmes" in this Yearbook Part.
- An average final mark in the NSC or the IEB school-leaving certificate (excluding Life Orientation) – 60%.
- Home Language – code 4 (50%).
- First Additional Language – code 3 (40%).
- Mathematics – code 6 (70%) *(if you are taking Mathematics 114, 144).*
- You must have a minimum standard equivalent to a Grade VII practical examination on your main instrument (or voice) and your knowledge must be equivalent to the Grade V theoretical examination of any of the music examination bodies.

BA (Music) is a selection programme where you are selected according to an audition and theoretical test. The selection takes place in the year preceding your registration for the programme.

- If you do not have the required skills, but show the necessary potential, you may possibly be accepted, provided that you register for supplementary work as specified by the Department.
- If you are required to register for Musicology (Music Skills) 271 as an additional subject in the degree programme, you must pass the module before you will be allowed to proceed with Music Theory 222 and 252.
- Alternatively, you might be encouraged to first complete the entire year of the Higher Certificate programme before you reapply for admission to the BA (Music) programme.
- If your practical work is of sufficient standard, but you do not have the required academic/theoretical background, you could do the three-year Diploma in Practical Music instead of this degree programme.

Consult section 1 in this chapter for the undergraduate enrolment management, as well as the "Admission Requirements and Selection Criteria for Undergraduate Programmes" at <https://files.su.ac.za/public/faculty-arts-and-social-sciences/documents/2025-10/2026-enrolment-management-fasspdf.pdf>.

Programme Content and Structure

BA (Music) is a three-year programme. Consult the chapter "Undergraduate Subjects, Modules and Module Contents" in this Yearbook Part for information on the BA (Music) programme's module contents as well as prerequisite pass and corequisite modules. The same chapter also provides the definitions of prerequisite pass and corequisite modules.

Please note: This programme does not have an option for the extended curriculum programme.

Once you have obtained the degree BA (Music), you can register for the third year of the BMus programme's specialisations in Musicology or Composition. Please note that the specialisation in Composition depends on selection.

Presentation

The programme is presented by means of formal lectures per subject field per week, complemented by practical sessions, tutorials and individual practical tuition.

Compulsory attendance subjects

- If you are registered for Practical Music Study A 378 with an Orchestral instrument, then you must register for Orchestral Practice as attendance subject. You must attend all rehearsals (as a member of one or more of the recognised orchestras within the Department).
- As a full-time music student, you are expected to attend a prescribed number of concerts presented by the Konservatorium, as well as the performance classes presented by the Department of Music. If your attendance is unsatisfactory in both instances, you will be penalised.

Programme Composition

Your chosen subject combination depends on timetable considerations and availability of lecturers for Practical Music Study. The subjects and modules that you choose may not clash on the class, test and examination timetables. In addition, consult the schematic outline for permissible subject combinations on the fold-out page at the back of this Yearbook Part.

5.9 BMus

Specific Admission Requirements

- A National Senior Certificate (NSC) or the school-leaving certificate from the Independent Examination Board (IEB) as certified by Umalusi with **a mark of at least 4 (50%)** in each of the four school subjects from the list of school subjects under "Undergraduate Programmes" in this Yearbook Part.
- An average final mark in the NSC or the IEB school-leaving certificate (excluding Life Orientation) – 60%.
- Home Language – code 4 (50%).
- First Additional Language – code 3 (40%).
- Mathematics – code 6 (70%) (*if you are taking Mathematics 114, 144*).
- You must have a minimum standard equivalent to a Grade VII practical examination on your main instrument (or voice) and your knowledge must be equivalent to the Grade V theoretical examination of any of the music examination bodies.
- Your admission is subject to a selection audition and a theoretical test in accordance with the Department of Music's selection policy. This must take place either during your Grade 12 year or in the year preceding the first registration, during which you must provide proof of the abovementioned standards in classical music.

BMus is a selection programme where your admission is subject to a selection audition and a theoretical test. The selection takes place in the year preceding your registration for the programme.

- If you do not have the required skills, but show the necessary potential, you may possibly be accepted, provided that you register for supplementary work as specified by the Department.
- If you are required to register for Musicology (Music Skills) 271 as a subject in the degree programme, you must pass the module before you will be allowed to proceed with Theory of Music 174 in the following year.
- Alternatively, you might be encouraged to first complete the entire year of the Higher Certificate programme before you reapply for admission to the BMus programme.
- If your practical work is of sufficient standard, but you do not have the required academic/theoretical background, you could do the three-year Diploma in Practical Music instead of this degree programme.

Consult section 1 in this chapter for the undergraduate enrolment management as well as the "Admission Requirements and Selection Criteria for Undergraduate Programmes" at <https://files.su.ac.za/public/faculty-arts-and-social-sciences/documents/2025-10/2026-enrolment-management-fasspdf.pdf>.

Admission to BMus after successful completion of the Diploma in Practical Music

Please note: In exceptional cases you can register for the second year of the BMus programme after successful completion of the Diploma in Practical Music, provided you have obtained a final mark of at least 70% in each of the modules General Music Study 391 and Theory of Music 371. You must, however, comply with all admission requirements of the BMus programme.

If you have successfully completed the Diploma in Practical Music, you will receive recognition for the following subjects:

Programme Content and Structure

BMus is a four-year programme. Consult the chapter "Undergraduate Subjects, Modules and Module Contents" in this Yearbook Part for information on the BMus programme's module contents as well as prerequisite pass and corequisite modules. In the same chapter you can find more information on other BA subjects in the yearbook entries of the departments concerned.

Please note: This programme does not have an option for the extended curriculum programme.

You can specialise within the BMus degree, starting from the third year. All practical specialisation routes, as well as Composition and Music Technology, are subject to selection and/or an audition. For more details consult the programme leader. The programme leader's contact details are available at the end of this programme information.

Presentation

The programme is presented by means of formal lectures per subject field per week, complemented by practical sessions, tutorials and individual practical tuition.

Compulsory attendance subjects

- If you are registered for Practical Music Study A 378 and 478 with an Orchestral instrument, then you must attend Orchestral Practice as attendance subject. You must attend all rehearsals (as a member of one or more of the recognised orchestras within the Department).
- As a full-time music student, you are expected to attend a prescribed number of concerts presented by the Konservatorium, as well as the performance classes presented by the Department of Music. If your attendance is unsatisfactory in both instances, you will be penalised.

Programme Composition

Subject combination depends on timetable considerations, as well as the availability of staff in the case of Practical Music Study. The subjects and modules that you choose may not clash on the class, test and examination timetables. In addition, consult the schematic outline for permissible subject combinations on the fold-out page at the back of this Yearbook Part.

5.10 BA (Development and Environment)

Specific Admission Requirements

- A National Senior Certificate (NSC) or the school-leaving certificate from the Independent Examination Board (IEB) as certified by Umalusi with **a mark of at least 4 (50%)** in each of the four school subjects from the list of school subjects under "Undergraduate Programmes" in this Yearbook Part.
- An average final mark of 63% in the NSC or the IEB school-leaving certificate (excluding Life Orientation) for the three-year mainstream programme.
- Home Language – code 4 (50%).
- First Additional Language – code 3 (40%).
- Mathematics – code 5 (60%) (only if you will be taking Economics 114 or 144)

Consult section 4 in this chapter for more information on the extended curriculum programmes.

Programme Content and Structure

- a) The programme structure consists of five first-year subjects, four second-year subjects and two and a half third-year subjects. In all three years of study the following three core disciplines are compulsory, except for a limited choice in the final year:
 - Geography and Environmental Studies;
 - Sociology/Social Anthropology; and
 - Public and Development Management.
- b) In the final year you take two and a half subjects out of the three for a total of 120 credits.
- c) You do a certain amount of work in each of the major subjects that is designed to enhance the content integration within and between the major subjects and the overall coherence of the programme. This work, that forms part of the process of integrated assessment, can take on various forms such as (interdepartmental) seminars, written assignments, various forms of practical work, etc.
- d) *Please note the following:*
 - If you comply with the admission requirements for Mathematics, you can take Economics 114 and 144 in your first year, and Economics 217 and 248 in your second year. This will give you the economic-related subject support you need in order to understand and deal with developmental realities.
 - If you do not take Economics 114 and 144 in your first year, then you must take Economics 288 (no admission requirements in Mathematics) as a compulsory module in your second year.
 - Note that you can only take Basic Xhosa in your first year.

Presentation

The programme is presented by means of formal lectures, tutorials, practicals, group work, individual assignments, self-study and field trips. You are expected to work more independently in your third year. Tuition techniques are monitored constantly and adjusted according to experience.

Programme Composition

The subjects and modules of the programme BA (Development and Environment) are set out below. You can find the contents of these subjects and modules in the chapter "Undergraduate Subjects, Modules and Module Contents" in this Yearbook Part.

Your chosen subject combination depends on timetable considerations. The subjects and modules that you choose may not clash on the class, test and examination timetables. In addition, consult the schematic outline for permissible subject combinations on the fold-out page at the back of this Yearbook Part.

Consult Yearbook Part 10 for module contents of modules that are presented by the Faculty of Economic and Management Sciences (marked with *).

5.11 BA (Political, Philosophical and Economic Studies [PPE])

Specific Admission Requirements

- A National Senior Certificate (NSC) or the school-leaving certificate from the Independent Examination Board (IEB) as certified by Umalusi with **a mark of at least 4 (50%)** in each of the four school subjects from the list of school subjects under "Undergraduate Programmes" in this Yearbook Part.
- An average final mark of 63% in the NSC or the IEB school-leaving certificate (excluding Life Orientation).
- Home Language – code 4 (50%).
- First Additional Language – code 3 (40%).
- Mathematics – code 5 (60%).

Please note: This programme does not have an option for the extended curriculum programme.

Programme Content and Structure

- The programme consists of five subjects on first-year level, four on second-year level and three third-year level. You must take Knowledge Skills in your first year.
- In the third year you take three major subjects:
 - Philosophy;
 - Political Science; and
 - Economics.

The modules consist of continued study of the abovementioned subjects. This means that you must have taken these modules on first-year and second-year levels.

- Besides the three major subjects, you must take two elective subjects in the first year, as specified in the accompanying programme composition. You can take any of these two elective subjects as a fourth subject in your second year.
- You do a certain amount of work in each of the three major subjects that is designed to enhance the content integration within and between the major subjects and the overall coherence of the programme. This work, that forms part of the process of integrated assessment, can take on various forms such as (interdepartmental) seminars, written assignments, various forms of practical work, etc.

Presentation

The programme is presented by means of formal lectures, practicals and tutorials as required in the participating disciplines. You will also be given written assignments, which you must complete independently. Group work may also be used.

Programme Composition

The subjects and modules of the programme BA (Political, Philosophical and Economic Studies) are set out below. The entries of the departments concerned give the module contents in the chapter "Undergraduate Subjects, Modules and Module Contents" of this Yearbook Part. Consult Yearbook Part 10 for the module contents of modules that are presented by the Faculty of Economic and Management Sciences (marked with *).

The entries of the departments African Languages and Modern Foreign Languages in the chapter "Undergraduate Subjects, Modules and Module Contents" give more information on the choice of modules for the subjects Xhosa, German and French respectively.

Your chosen subject combination depends on timetable considerations. The subjects and modules you choose may not clash on the class, test and examination timetables. In addition, consult the schematic outline for permissible subject combinations on the fold-out page at the back of this Yearbook Part.

- A minimum performance obtained in one of the following subjects – Physical Sciences code 3 (40%) OR Life Sciences code 4 (50%).

Please note: This programme does not have an option for the extended curriculum programme.

Selection is done according to the guidelines and procedures of the Faculty of Arts and Social Sciences and the Department of Sport Science. The selection policy for this programme is available from the Department's selection officer. The selection officer handles all application and selection related queries.

Programme Content and Structure

- Your admission for this programme is subject to selection by the Department of Sport Science.
- The degree programme in Sport Science is a three-year programme. Sport Science can be followed in combination with one of the following subjects:
 - Afrikaans and Dutch;
 - English;
 - Geography and Environmental Studies; or
 - Psychology.
- Please note the following prerequisite requirements:
 - Sport Science 112 is a prerequisite pass module for Sport Science 262.
 - Physiology 114 and 144 are prerequisite modules for Sport Science 232 and 252.
 - Sport Science 184 is prerequisite pass module for Movement Studies, Sport and Recreation 282.

Special Provisions

- Selection
 - Only a limited number of students are admitted annually to the first year of this programme.
 - You must apply by 30 June of the preceding year.
 - If you are not declared medically fit, you will not be allowed to register for the compulsory practical modules such as Sport Science 184.
- Dress Code
 - You must obey the prescribed regulations regarding the dress code.

- You can obtain particulars of these regulations from the Department of Sport Science at the beginning of the academic year.

3. Practical Classes

- You must attend all practical classes.
- The Department of Sport Science requires a minimum of 40% for each component of the practical classes.
- You must pass all practical and theoretical modules with a minimum of 50%.

Presentation

The programme is presented by means of formal lectures, tutorials, practicals (including sports practicals), laboratory visits, group work, work assignments that are completed independently and self-study.

Programme Composition

You can find the contents of the subjects and modules that are set below in the chapter "Undergraduate Subjects, Modules and Module Contents" in this Yearbook Part, as well as in the Faculty of Medicine and Health Sciences' Yearbook Part (Part 12).

Your chosen subject combination depends on timetable considerations. The subjects and modules that you choose may not clash on the class, test and examination timetables. 6. Certificate and diploma programmes

6.1 Higher Certificate in Music

Specific Admission Requirements

- A National Senior Certificate (NSC) as certified by Umalusi with **a mark of at least 3 (40%-49%)** in each of the four school subjects (excluding Life Orientation) from the list of school subjects under "Undergraduate Programmes" in this Yearbook Part.
- You must have a minimum standard equivalent to a Grade V/VI practical examination on your main instrument (or voice) and your knowledge must be equivalent to the Grade III/IV theoretical examination of any of the music examination bodies.
- If your main instrument is a bowed string instrument, you must have achieved a minimum standard that is equivalent to a Grade VI practical examination.

The Higher Certificate in Music is a selection programme where your admission is subject to a selection audition and a theoretical test. The selection takes place in the year preceding your registration for the programme. If you do not have the required skills, but show the necessary potential, you may possibly be accepted, provided that you register for supplementary work as specified by the Department.

Programme Content and Structure

The programme extends over one year (120 credits).

Consult the chapter "Undergraduate Subjects, Modules and Module Contents", in this Yearbook Part for information on the Higher Certificate in Music with regard to the contents of modules, as well as prerequisite pass and corequisite modules.

After successful completion of the Higher Certificate in Music, you may register for the Diploma in Practical Music or one of the Music Department's degree programmes. However, you will have to comply to the entrance requirements as specified by each programme; and undergo the prescribed selection procedures.

Presentation

The programme is presented by means of formal lectures per subject discipline per week supplemented with practical sessions and tutorials, as well as individual practical tuition.

Workshops

You must attend a number of workshops as determined by the Department with respect to writing, language and study skills. Completion of the Higher Certificate will be subject to your satisfactory attendance of these workshops. The Department will notify you of these workshops at the beginning of the academic year.

6.2 Diploma (Practical Music)

Specific Admission Requirements

- A National Senior Certificate (NSC) as certified by Umalusi with **a mark of at least 3 (40%-49%)** in each of the four school subjects (excluding Life Orientation) from the list of school subjects under "Undergraduate Programmes" in this Yearbook Part.
- You must have a minimum standard equivalent to a Grade VII practical examination on your main instrument (or voice) and your knowledge must be equivalent to the Grade III/IV theoretical examination of any of the music examination bodies.

The Diploma in Practical Music is a selection programme where your admission is subject to a selection audition and a theoretical test. The selection takes place in the year preceding your registration for the programme.

If you do not have the required skills, but show the necessary potential, you may possibly be accepted, provided that you register for supplementary work as specified by the Department.

Admission to the Diploma (Practical Music) after successful completion of the Higher Certificate in Music

- You can register for the Diploma in Music after you obtained the Higher Certificate in Music and if you comply with the entrance requirements for the Diploma.
- You must undergo the prescribed selection process.
- You will receive credit for the following subjects:

Higher Certificate (Music)	Diploma (Practical Music)
Academic Literacy (Music) 114(12) and 144(12)	Academic Literacy (Music) 114(12) and 144(12)

Postgraduate Programmes

For more information on the Faculty of Arts and Social Sciences' postgraduate programmes, consult the University's Postgraduate Prospectus or the various departmental websites.

1. Recognition of Prior Learning (RPL)

Special admission to the postgraduate programmes in the Faculty is available to you if you:

- were denied opportunities to formal learning environments earlier because of systemic or other limitations, but you can demonstrate that you can now participate at a particular level in such learning opportunities; or
- can receive retrospective recognition for them.

If you do not have a Bachelor's degree, you must follow the Recognition of Prior Learning (RPL) procedure for admission to a postgraduate diploma, Honours, MPhil or MA programme. Not all departments have the possibility of admission by means of the RPL procedure. A Bachelor's degree awarded by a university of technology or a private provider of higher education will be recognised only if your degree is registered with the South African Qualifications Authority (SAQA) on the same level as the required university qualification.

Please note: It remains the responsibility of a Department to establish if your existing qualification is up to standard.

More details of the Faculty's RPL procedure are available from the Faculty Administrator, Arts and Social Sciences, in the Admin A building.

3.4 Department of Drama

3.4.1 BAHons (Drama and Theatre Studies)

Programme Code

54267 – 778(120)

Specific Admission Requirements

First round of selection:

- A BA degree (Drama and Theatre Studies), or a Bachelor's degree with Theatre Studies or another major related to this programme and approved by Senate.
- An average of at least 65% in Theatre Studies (or an equivalent subject).
- A higher mark for Theatre Studies can, however, be set as the cut-off point for admission to the programme in any given year, depending on the number and quality of applications received by the Department. This decision is made annually at the Department's discretion.

Second round of selection:

- Each specialisation field has its own selection criteria. These can include a portfolio, interview and/or audition. Contact the programme leader for further information in this regard.
- The number and quality of applications, the availability of staff, infrastructure and available places determine the specialisation options for any specific year.

Closing Date for Applications

- South African students:
 - Apply by **30 September** of the preceding year and submit all necessary supporting documents.
- International students:
 - Apply by **31 August** of the preceding year and submit all necessary supporting documents.

Programme Structure

The programme focuses on the concept of *performance* (on the stage, radio, TV, film, etc.), which is studied in the three compulsory theoretical modules and then investigated experimentally in your choice of specialisation. You choose **one** specialisation in consultation with staff.

The programme is presented in six practicals and three seminars per week. An individual supervisor is assigned to each student for the research assignment.

Duration of Programme

The programme extends over one academic year. Lectures normally begin in the last week of January. It is a fulltime residential programme.

3.6.2 Postgraduate Diploma in Second-language Studies

Please note: This programme is not necessarily presented every year. Please contact the Department before applying for admission.

Programme Code

51128 – 788(120)

Specific Admission Requirements

- A Bachelor's degree with linguistics, a language, a language-related subject or speech therapy (logopaedics) as major, or another qualification accepted by Senate as equivalent to a Bachelor's degree.
- With regard to the language requirement, your application with a language at second-year level may also be considered in exceptional cases.

Closing Date for Applications

- South African students:
 - Apply by **30 November** of the preceding year.

- International students:
 - Apply by **30 September** of the preceding year.

Programme Structure

The programme focuses on aspects of the phenomenon of second languages which are central to various forms of language practice, and investigates specifically the nature, properties and acquisition of second languages from a general linguistic and psycholinguistic perspective. You take three compulsory modules: one in the first semester and two in the second semester. One of the modules in the second semester is a self-study module in which you have a limited choice regarding the topic of study, and which is aimed at the deepening of knowledge. This self-study module is assessed by means of an examination.

Duration of Programme

The programme extends over a minimum of one academic year.

Programme Content

Compulsory Modules

10055 : General Linguistic Perspective	771(48)
10056 : Psycholinguistic Perspective	772(48)
10058 : Perspective on Second Languages	747(24)

3.6.3 BAHons (General Linguistics)

Programme Code

10294 – 778(120)

Specific Admission Requirements

- A Bachelor's degree with linguistics, a language, a language-related subject or speech therapy (logopaedics) as major area of study, or another qualification accepted by Senate as equivalent to such a Bachelor's degree.

Closing Date for Applications

- South African students:
 - Apply by **30 September** of the preceding year and submit all necessary supporting documents.
- International students:
 - Apply by **31 August** of the preceding year and submit all necessary supporting documents.

Programme Structure

You take **three** compulsory modules. The base module is offered in the first semester and focuses on central assumptions and concepts in modern linguistic research. The specialisation module is offered in the second and third terms and offers you the opportunity of specialising in one of the following domains:

- The structure of language
- The use of language
- Critical Discourse Analysis
- Sociolinguistics
- Second-language acquisition
- Intercultural communication
- Psycholinguistics
- Sign Language linguistics
- Child language acquisition and language impairment

In the research module, which extends over the second semester, you conduct limited individual research on a topic falling within your specific specialisation domain. You choose your domain of study in consultation with the Department. Your choice is determined by the availability of supervisors.

Duration of Programme

The programme extends over a minimum of one academic year.

- International students:
 - Apply by **31 August** of the preceding year and submit all necessary supporting documents.

Duration of Programme

Twelve months.

Programme Description

The purpose of the programme is twofold. Firstly, it aims to consolidate and deepen the knowledge and skills of students with Bachelor's degrees in the area of Informatics. In doing so the programme aims to deliver a mature graduate with a holistic understanding of information systems as socio-technical phenomena operating in the context of social collectives. Due to the nature of the content covered in the programme, it is envisaged that graduates would be more suited to managerial positions in ISM contexts, as opposed to junior developer/analyst positions. The second purpose of the programme is to introduce students to the various aspects of conducting research in the fields of Informatics, Information Systems, Knowledge Management and others. As part of the programme students are expected to conduct a research assignment (30 credits).

Programme content

A minimum of 120 credits.

Compulsory modules

Specific Admission Requirements

- A B degree or advanced diploma in health or development (e.g. occupational therapy, medicine, nursing, social work, psychology or cognate field) at NQF level 7.
- Adequate English language and writing proficiency for postgraduate academic studies.

Closing date for applications

This programme will not necessarily be offered every year. Please contact the programme leader.

Programme structure

This is a postgraduate diploma which includes coursework and practical assignments.

The programme focuses on the development of leadership and capacity in the field of Public Mental Health. It also aims to develop basic research skills, particularly with respect to the ability to interpret and use research findings in the development of services.

The programme is designed to be relevant and accessible to full-time working health and development professionals.

Duration of Programme

The programme is normally available over one year or two years. Only the one-year option is offered at the moment. Enquiries in this regard can be directed to the programme leader.

Presentation

The programme is presented in hybrid mode. This enables students to learn by means of longer periods of asynchronous online learning, as well as real-time online interactions and blocks of on-campus interactions.

Programme Content

The programme requires the completion of four compulsory modules, each of which involves practical assignments that relate to the ongoing work that you conduct in your work environment.

Compulsory modules for one-year registration

12196 : Mental Health Epidemiology	771(30)
12193 : Research Methodology for Public Mental Health	771(30)

3.15.2 BAHons (Psychology)

Programme Code

18414 – 778(120)

Specific Admission Requirements

- A Bachelor's degree with a major in Psychology.
- An average final mark of at least 65% for the Psychology major in the third year as well as an average of 65% for Psychology over all three years of study. A higher performance cut-off may be set in a given year, depending on the number and the achievement level of applicants.

Closing Date for Applications

- South African students:
 - Apply by **31 August** of the preceding year.
- International students:
 - Apply by **31 July** of the preceding year.

Admission to the programme is dependent upon selection based on academic achievement and takes place in November of the preceding year. Details on selection is available at www.su.ac.za/en/faculties/arts/departments/psychology.

Programme Structure

The programme is presented in English.

The programme focuses on advanced knowledge of human behaviour, intrapsychic as well as interpersonal, normal as well as abnormal, individually as well as in group contexts. It also encompasses the application of such knowledge in the multi-cultural South African society, particularly with regard to the understanding of specific psychosocial problems and the development of intervention and preventative strategies. In addition, the programme also focuses on the development of critical-analytical and problem-solving thinking skills, as well as social-scientific research knowledge and skills.

Please note that the Honours programme at Stellenbosch University is an academic programme. It is not designed to meet the requirements for the Professional Board for Psychology for registration as a psychological counsellor or as a psychometrist, and does not serve as an entrance qualification for internships in these areas. Professional training in this Department is offered only at Master's level.

Based on the credit values of modules (indicated in brackets after each module) a selection of modules is made to a minimum of 120 credits for the programme.

Duration of Programme

The Honours programme in Psychology is a one-year full-time programme. Lectures begin in the first week of February and is divided according to the undergraduate academic terms.

Programme Content

Depending on staff availability, certain modules may not be offered every year. For certain modules a restriction may be placed on the number of students. If the demand for a specific module is too small in any given year, that module may not be offered in that year.

3.15.3 MA (Clinical Psychology)

Programme Code

24813 – 899(181)

Specific Admission Requirements

- An Honours degree in Psychology or equivalent qualification that Senate has approved for admission to the programme, completed with a minimum final mark of 65%.
- Proficiency in at least two official languages.

Closing Date for Applications

Apply by 30 May of the preceding year. Admission is subject to selection, which takes place in August of the preceding year. Application forms and information on the selection process are available on the Department of Psychology's website at www.su.ac.za/en/faculties/arts/departments/psychology.

Programme Structure

The programme focuses on the identification and treatment of psychopathology in children and adults, as well as on the development, implementation and assessment of preventative and remedial programmes. The theoretical component is presented in English and consists of different modules which cover the broad terrain of Clinical Psychology. The practical component of the programme requires you to be involved in the diagnostic assessment and psychotherapeutic treatment of adults, children and families, and to undertake individual community projects. You must be involved continuously throughout the year (approximately 15 to 20 hours per week) with the Welgevallen Community Psychological Clinic, community clinics and within departmental community projects. An assignment, based on independent research under supervision, must also be completed.

This programme satisfies the conditions and requirements of the Professional Board for Psychology for the professional training of clinical psychologists and is accredited as such with the Professional Board. In order to register as a clinical or psychologist the Professional Board for Psychology requires:

1. The successful completion of examinations and practical work;
2. A full-time internship of 12 months accredited by the Professional Board;
3. 12 months of community service; and
4. The successful completion of the Professional Board's examination for psychologists.

Due to revised requirements of the Professional Board, this programme includes an internship of one full year for new students registering from 2025. You must complete the theoretical component of the programme and have a research proposal approved before embarking on the internship. The research component and the internship can be completed in the same year.

Duration of Programme

The programme extends over a minimum period of two years and a maximum of three.

3.17.8 MA (Public Sociology and Anthropology)

Programme Code

13690 – 889(180)

Specific Admission Requirements

- An Honours degree in Sociology or Social Anthropology or an equivalent qualification on NQF level 8 that Senate considers as sufficient for admission to the programme.
- An average final mark of at least 65%, with demonstrated academic ability.

Closing Date for Applications

- South African students:
 - Apply by **30 November** of the preceding year.
- International students:
 - Apply by **31 October** of the preceding year.

Programme Structure

This programme focusses on the acquisition and broadening of knowledge in a specific area of Sociology or Social Anthropology. It also aims to develop your ability to think critically about social issues related to transformation in (South) Africa and to critically apply the newly acquired knowledge and skills to societal problems. It includes an applied practice component.

The programme consists of four modules: You will receive a solid grounding in Social Theory and take a module in Research Design and Ethics which provides the foundation for a thesis. You will also take a module in Critical Transformation Studies where you select a topic which is most closely aligned to your thesis. You choose between the elective of Public Sociology (Thesis) and Public Anthropology (Thesis). An internship programme of a minimum of five weeks is linked to your thesis. You work on your thesis from the start with your supervisor, and this runs concurrently with the modules which are structured to support the development of your research proposal, research and the writing of your thesis.

Programme Content

13634 : Social Theory	871(30)
13635 : Research Design and Ethics	871(30)
13636 : Critical Transformation Studies	871(30)

Programme Structure

Doctoral degrees in the arts are research degrees culminating in a dissertation. The study as a whole can consist of theoretical work or it can be the results of an integrated study of the creative processes and theoretical work which are reported in a dissertation. The unique nature of the integrated option is derived

from the coherence and interdependency of the study of the creative process and theoretical dimensions of the research leading to an original contribution to knowledge and insight into the arts.

You must present your research for comment on a regular basis. You must, from time to time, present papers dealing with your research at seminars for informal discussion.

Programme Code

14892 – 978(360)

Specific Admission Requirements

An MPhil in Interdisciplinary Arts Studies or an MA degree in arts or social sciences, or an acceptable equivalent qualification regarded by the Senate as adequate for admission to the programme and which provides evidence of your ability to conduct advanced independent research.

Closing Date

Applications are considered year-round.

Programme Structure

The PhD in Interdisciplinary Arts Studies offers you the opportunity to develop an innovative research or integrated artistic project that cuts across traditional boundaries of academic disciplines, performance practices and artistic media.

This doctoral degree is a research degree culminating in a dissertation or an integrated creative project. You can present your study as a traditional monograph or as artistic research in the integrated PhD format. It is also possible to develop and submit the integrated discursive and practice-based dimensions of your project in a dynamic, interactive digital format.

The unique nature of the integrated option lies in the coherence and interdependency of your creative work and the theoretical dimensions of your research, leading to an original contribution to knowledge of and insight into the arts.

The programme is aimed both at practicing artists and at students following a more conventional academic trajectory in the study of music, visual arts, theatre and performance studies, or in historical, philosophical, sociological or ethnographic reflections on arts practices. Participation in the Africa Open Institute's weekly research seminar is compulsory.

4.3 Centre for the Study of the Afterlife of Violence and the Reparative Quest (AVReQ)

4.3.1 MPhil (Violent Histories and Repair)

Programme Code

764_100

Specific Admission Requirements

- A professional (480-credit) Bachelor's degree (NQF level 8) or Honours degree (NQF level 8), or a Postgraduate Diploma (NQF level 8), in a field of study within the Social Sciences, Arts or Law.
- Any other qualification equivalent to NQF level 8.
- Any international equivalent of the above qualifications.
- A minimum average mark of 65% for the preceding qualification.

You will have to provide evidence that you:

- conducted qualitative research or had a theoretical research component as part of your preceding qualification.
- are proficient in communicating and producing appropriate academic writing in English.
- have a community engagement or social responsibility orientation.

Further Requirements

In addition to the requirements above, you must also:

- submit a comprehensive CV indicating your work experience.
- submit one entrance essay (a brief concept note for your proposed MPhil research); this essay of between 1500 and 2000 words should focus on an aspect of Violent Histories and Repair relevant to the programme description and of interest to you.
- submit a motivation letter of approximately 500 words explaining why you are interested in enrolling for this programme.

Closing Date for Applications

South African students:

- Apply by **31 October** of the preceding year.

International students:

- Apply by **31 August** of the preceding year

Programme Structure

The MPhil (Violent Histories and Repair) is an interdisciplinary programme that engages critical decolonial approaches to study the legacies of violent histories. It takes an intersectional approach to examining the structural aspects of systemic violence, which includes its racial and gendered dimensions, as well as the more insidious and symbolic forms of its expression that are embedded in institutional cultures and practices. The programme focuses on violent histories, intergenerational trauma, and repair. There are three compulsory theoretical modules and a research methodology module aimed at strengthening your research capacity for the thesis.

Duration of Programme

The programme extends over a minimum of one academic year.

Programme Content

Compulsory Modules

71022 : Afterlife of Violence	814(15)
71023 : Research Methodology and Ethics for Violent Histories	814(15)
71034 : Contextual Perspectives on Trauma Testimonies	844(15)
71035 : Historical Trauma and Redress	844(15)
71036 : Thesis (Violent Histories and Repair)	872(120)

Assessment and Examination

The taught modules are assessed as explained in the individual module frameworks. The thesis is assessed according to Stellenbosch University's regulations for the examination of Master's theses as set out in Part 1 (General Rules) of the Yearbook.

4.6 Interdepartmental and Interfaculty

4.6.1 Transdisciplinary Doctoral programme focused on Complexity and Sustainability

Programme Description

The Faculty of Arts and Social Sciences in collaboration with the Faculties of AgriSciences, Economic and Management Sciences, Engineering, Science and Theology, offers you the opportunity to do research on the search for sustainable solutions for complex problems concerning socio-natural problems that cannot necessarily be studied from a particular monodisciplinary perspective in order that you may enrich your doctoral studies in any of these faculties through courses on the theory and practice of transdisciplinarity.

Consult the Faculty of Economic and Management Sciences' Yearbook, Part 10, for more information on this doctoral programme.

Undergraduate Subjects, Modules and Module Contents

1. Definitions and explanations of important terms

It is important that you take note of the definitions of a few terms in order to understand and use this chapter fully. The example below shows how these terms will appear later in this chapter.

Example:

18414 Psychology

114 (12) Psychology as a Science (2L, 1T)

1.1 Explanation of the abovementioned terms

- Five-digit subject number

18414 Psychology

Each subject is identified by this five-digit-subject number. The subject number "18414" refers to the subject Psychology.

- Subject name

18414 Psychology

The specific name of the subject is presented directly after the five-digit subject number before the various modules of the subject are offered. Normally the subject name is followed by the module code and the credit value of the specific module, for example in this case: Psychology 114 (12).

- Module code

114 (12) Psychology as a Science (2L, 1T)

The module code consists of a three-digit number that is unique to the specific module. The module code "114" has the following meaning:

- The first digit refers to the year of study in which the module is presented, for example:
 - Year 1: 114*
 - Year 2: 214*
 - Year 3: 314*
- The second digit "1" refers to the semester that the module will be presented in and also serves as a number to distinguish between various modules offered within the same specific year of study. The University uses different numbers to indicate the particular semester of a module, either the first or the second semester or modules that are presented in both semesters (which are year modules). The numbers that indicate semesters are as follows:
 - **1, 2 or 3** – modules are presented in the first semester.
Semester 1: 214, 324, 334
 - **4, 5 or 6** – modules are presented in the second semester.
Semester 2: 342, 354, 364
 - **7, 8 or 9** – modules are presented in both semesters, which are year modules.
Year modules (both): 278, 288, 391
- The third digit "4" of the module code **114** serves as a distinguishing digit between various modules of the same subject in a particular year of study.

- Credit value

114 (12) Psychology as a Science (2L, 1T)

The number in brackets after the module code indicates the credit value of the particular module, for example Psychology 114(12). When you pass Psychology 114(12), you will receive 12 credits.

- Module subject

114 (12) Psychology as a Science (2L, 1T)

This indicates the subject that will be dealt with in this specific module.

- Teaching load:

114 (12) Psychology as a Science (2L, 1T)

The teaching load of a module is indicated after the module subject. It gives you both the teaching load and the type of teaching per week that you can expect in this particular module. For the module Psychology 114 you can expect two lectures and one tutorial each week for the duration of the module. The following abbreviations are used for the teaching load:

- **L** – Lecture of 50 minutes, for example 2L
- **P** – Practical period of 50 minutes, for example 1P, 2P, 3P
- **S** – Seminar of 50 minutes, for example 1S, 2S
- **T** – Tutorial of 50 minutes, for example 1T, 2T

2. Prerequisite pass, prerequisite and corequisite modules

After the description of the content of a module, the prerequisite pass, prerequisite and corequisite modules, if applicable, are given for that module. The following terms are used:

- Prerequisite pass module
 - A prerequisite pass module is a module that you must **pass** before you can take the module(s) for which it is a prerequisite pass module.
- Prerequisite module
 - A prerequisite module is a module in which you must obtain a **final mark of at least 40**, before you can take the module for which it is a prerequisite module. If you registered for a prerequisite module while it was examined by the "examination" assessment system, your **class mark** for it must be 40 for you to meet the prerequisite.
 - If you have once complied with a prerequisite rule, your compliance will remain valid for the period given in the applicable assessment rules, even if you repeat the prerequisite module and do not meet the minimum level when repeating the module.
 - *Please note:* You must **pass** all the modules you used as prerequisites in the programme before the relevant degree, certificate or diploma can be awarded to you.
- Corequisite module
 - A corequisite module is a module that you must register for in either an **earlier semester** than the module for which it is a corequisite, **or in the same semester**.
 - *Please note:* You must **pass** all the modules you used as corequisites in the programme before the relevant degree, certificate or diploma can be awarded to you.

3. Assessment of modules

Modules are assessed according to the latest version of the Faculty Assessment Plan and the University's Assessment Policy. These documents are available on the respective websites.

4. Subjects, modules and module contents

Subjects with their accompanying modules, credits, module subjects, teaching loads, and module contents are presented below.

Department of African Languages

1. Provision for students who already passed a course in the Nguni language group:

Students who have already passed a course in the Nguni language group at another university may not follow a similar course in the same language group in this Department. In other words, a student who, for example, has passed a first-year course in Zulu, a language in the Nguni language group, may not follow a first-year course in Xhosa. Such a student could, however, follow a second- or third-year course in Xhosa, depending on the prior study.

2. All modules are assessed according to the Faculty Assessment Plan.

41505 African Languages

The subject modules in African languages focus on the comparative study of a wide variety of phenomena in the literature, linguistics and communication analysis in different African languages. The study content is directed towards equipping students with the knowledge and ability to explore the variation amongst different African languages and to take these variations into account, in an informed manner, when solving problems characteristic of language and communication services for African languages.

The subject modules in African languages are especially important to students who will work in careers where knowledge of the variations amongst African languages is important. The modules represent a progression in advanced study from the first to the third year.

114 (12) Introductory Study of African Languages (3L, 1T)

Classification of the African languages;

Language planning and language policy for the African languages;

Communication analysis of selected African languages in a range of communication contexts;

Comparative study of literature from selected African languages: a choice of genres;

Comparative study of linguistics from selected African languages.

Comparative study of language and cultural phenomena in selected African languages.

This module will not be offered in 2026.

144 (12) Continued Introductory Study of African Languages (3L, 1T)

Communication analysis of selected African languages in a range of communication contexts;

Comparative study of language and cultural phenomena in selected African languages;

Comparative study of literature of selected African languages: a choice of genres;

Comparative study of linguistics of selected African languages.

Prerequisite Module: African Languages 114

This module will not be offered in 2026.

214 (16) Intermediate Study of African Languages (3L, 1T)

Continued study of comparative communication analysis of selected African languages;

Continued study of comparative literature of selected African languages;

Continued study of comparative linguistics of selected African languages.

Prerequisite modules: African Languages 114 and 144 (on condition that one of the previously mentioned modules has been passed)

This module will not be offered in 2026.

244 (16) Continued Intermediate Study of African Languages (3L, 1T)

Continued study of comparative communication analysis of selected African languages;

Continued study of comparative literature of selected African languages;

Continued study of comparative linguistics of selected African languages.

Prerequisite module: African Languages 214

This module will not be offered in 2026.

318 (24) Advanced Study of the African Languages (4L, 1T)

Advanced comparative study of language and cultural phenomena;

Advanced study of communication analysis of selected African languages;

Advanced study of comparative literature of selected African languages;

Advanced study of comparative linguistics of selected African languages;

Study of language learning and teaching in selected African languages.

Prerequisite module: African Languages 244

This module will not be offered in 2026.

348 (24) Continued Advanced Study of African Languages (4L, 1T)

Advanced comparative study of language and cultural phenomena;

Advanced study of comparative communication analysis of selected African languages;

Advanced study of comparative literature of selected African languages;

Advanced study of comparative linguistics of selected African languages;

Study of language learning and teaching of selected African languages.

Prerequisite module: African Languages 318

This module will not be offered in 2026.

49638 Basic Xhosa

Special provisions for taking Basic Xhosa

1. Students who have passed Xhosa for the matriculation or other equivalent examination may not follow Basic Xhosa for degree purposes.
2. No previous knowledge of Xhosa is required.
3. Basic Xhosa normally does not lead to continuation of Xhosa in the second year, but in exceptional circumstances the Department may grant permission for such study in the second year.
4. Basic Xhosa may not be taken as a separate course in addition to Xhosa 178 for degree purposes.
5. Basic Xhosa 114 is a prerequisite for Basic Xhosa 144.
6. Basic Xhosa 174 is aimed at staff and students from other faculties, as well as the general public, who are unable to attend regular classes but wish to learn Xhosa at a basic level. It is offered after-hours over the course of the full academic year.

114 (12) Introduction to Communication in Xhosa (3L, 1T)

The classification of the African languages of South Africa;

The communication skills of speaking, listening comprehension, reading and writing in a socio-cultural context;

Cultural perspectives and language-related cultural conventions relevant to basic communication in Xhosa;

The grammar of Xhosa relevant to the learning of basic communication skills.

144 (12) Introduction to Communication in Xhosa (3L, 1T)

The communication skills of speaking, listening comprehension, reading and writing in socio-cultural context;

Cultural perspectives and language-related cultural conventions relevant to basic communication in Xhosa;

The grammar of Xhosa relevant to the learning of basic communication skills.

Prerequisite module: Basic Xhosa 114

174 (12) Introduction to Communication in Xhosa (3L, 1T)

(Subject to registration with the South African Qualifications Authority (SAQA))

The classification of the African languages of South Africa;

The communication skills of speaking, listening comprehension, reading and writing in a socio-cultural context;

Cultural perspectives and language-related cultural conventions relevant to basic communication in Xhosa;

The grammar of Xhosa relevant to the learning of basic communication skills.

21687 Xhosa

Special provisions for taking Xhosa

The modules (Xhosa 178, 214, 244, 318, 348) constitute the contents for students who did not pass Xhosa or Zulu first language for the matriculation examination (that is, the non-mother-tongue stream), while the modules that follow below (Xhosa 188, 224, 254, 328 and 358) constitute the contents for students who have a first-language communication proficiency in Xhosa or Zulu.

178 (24) Introduction to Xhosa Language and Culture (3L, 1T)

Classification of the African languages

Language policy and language planning for the African languages;

The communication skills of speaking, listening comprehension, reading and writing in socio-cultural contexts;

Cultural perspectives and language-related cultural conventions relevant to basic communication in Xhosa;

Xhosa grammar relevant to acquiring communication skills in Xhosa;

Introduction to the linguistics of Xhosa;

Introduction to communication in authentic prescribed texts from the printed media (newspaper, magazine);

Introduction to the literature of Xhosa.

Notes

1. Students who have passed Xhosa or Zulu First Language for the matriculation examination or an equivalent examination may not take Xhosa 178 for degree purposes but can take Xhosa 188.
2. Students of Speech-Language and Hearing Therapy I and the extended curriculum programme for Speech-Language and Hearing Therapy I Faculty of Medicine and Health Sciences are placed in either Xhosa 178 or Afrikaans Language Learning 179 or 189 according to a language proficiency test.
3. No previous knowledge of Xhosa is required.

188 (24) Introduction to Xhosa Language, Communication and Culture (3L, 1T)

Classification of the African languages;

Language planning and language policy for the African languages;

Xhosa language and culture with regard to authentic spoken and written texts (e.g. printed media: newspaper, magazine) and visual media (television);

Communication in Xhosa in a range of communication contexts;

Xhosa literature: a choice of genres;

Xhosa linguistics.

Note: Xhosa 188 requires a first-language communicative proficiency in Xhosa or Zulu.

214 (16) Continued Xhosa Language and Culture (3L, 1T)

Continued study of the communication skills of speaking, listening comprehension, reading and writing in a socio-cultural context;

Continued study of cultural perspectives and language-related conventions for communication in Xhosa;

Continued study of communication in authentic prescribed texts in the printed media (newspaper, magazine);

Continued study of Xhosa literature;

Continued study of Xhosa linguistics.

Prerequisite pass module: Xhosa 178

224 (16) Continued Xhosa Language, Communication and Culture (3L, 1T)

Continued study of Xhosa language and culture with regard to authentic written and spoken texts (e.g. the printed media: newspaper, magazine and the visual media: television);

Continued study of communication in Xhosa;

Xhosa literature: a choice of genres;

Continued study of Xhosa linguistics.

Prerequisite pass module: Xhosa 188

244 (16) Continued Xhosa Language and Culture (3L, 1T)

Continued study of the communication skills of speaking, listening comprehension, reading and writing in a socio-cultural context;

Continued study of cultural perspectives and language-related cultural conventions relevant to communication in Xhosa;

Continued study of communication in authentic prescribed texts in the printed media (newspaper, magazine) and literary works;

Continued study of Xhosa linguistics;

Xhosa literature;

Study of authentic (spoken) communication and language-related cultural conventions in the visual media (television).

Prerequisite pass module: Xhosa 214

Department of Afrikaans and Dutch**14694 Afrikaans Language Learning****179 (24) Afrikaans as Foreign Language (3L, 2P)**

Only students with no training in Afrikaans or who had Afrikaans as a Second Additional Language are admitted to this module.

An integrated approach is followed in the module to study the four communication skills – reading, listening, talking and writing:

- Elementary interaction around a narrative text and thematically related texts (general and literary).
- Strategic reading and listening skills in academic lecture situations.
- Relevant language study and vocabulary enhancement.

Notes

1. Recommendations on the placing of students in Afrikaans Language Learning 179 or in Afrikaans Language Learning 189 are based on departmental language-proficiency tests which are written at the beginning of the year.
2. Students of Speech-Language and Hearing Therapy I and the extended curriculum programme for Speech-Language and Hearing Therapy I of the Faculty of Medicine and Health Sciences are placed in either Xhosa 178 or Afrikaans Language Learning 179 or 188 according to a language proficiency test.
3. This module does not lead to Afrikaans and Dutch 278.
4. See the departmental information document for further details.

189 (24) Afrikaans as Second Language (3L, 2P)

Only students with Afrikaans as First Additional Language and whose mother language is not Afrikaans are admitted to this module. No mother-tongue speakers of Afrikaans or students who passed Afrikaans as a Home Language may take this module.

An integrated approach is followed in the module to study the four communication skills – reading, listening, talking and writing.

Students encounter various methods of language study:

- Advanced interaction around thematically related texts (general and literary)
- Strategic reading and listening skills in academic lecture situations
- Relevant grammar study
- Visual media and film study
- Oral communication

Notes

1. Recommendations on the placing of students in Afrikaans Language Learning 189 or in Afrikaans and Dutch 178 are based on departmental language-proficiency tests which are written at the beginning of the year.
2. Students of Speech-Language and Hearing Therapy I and the extended curriculum programme for Speech-Language and Hearing Therapy I in the Faculty of Medicine and Health Sciences are placed in either Xhosa 178 or Afrikaans Language Learning 179 or 189 according to a language proficiency test.
3. This module does not lead to Afrikaans and Dutch 278.
4. See the departmental information document for further details.

279 (32) Afrikaans as Foreign Language (3L, 2P)

Only students who have passed Afrikaans Language Learning 179 are admitted to this module. No mother-language speakers or second-language speakers of Afrikaans may take this module.

An integrated approach is followed in the module to study the four communication skills – reading, listening, talking and writing.

Students encounter various methods of language study:

- Advanced interaction around thematically related texts (general and literary)
- Strategic reading and listening skills in academic lecture situations
- Relevant grammar study
- Oral communication

289 (32) Afrikaans as a Second Language (3L, 2P)

Department of Ancient Studies

1. All modules are assessed according to the Faculty Assessment Plan. At the outset of every module, students are informed in writing of the way in which their marks are calculated and for the duration of the module they receive regular feedback on their progress.
2. Law students who do not want to take a course in Latin but still have an interest in the Roman legal-cultural heritage, can develop this interest by taking the Classical Legal Culture modules in their first year of study. These modules jointly grant admission to Ancient Cultures in the second and third years.

53813 Ancient Cultures

1. In Ancient Cultures the cultures of Southwestern Asia and North Africa and the ancient Greek and Roman civilisations are studied – the cultures that laid the foundation of our contemporary worldview, values, literature and arts. The relevance of these cultures for contemporary legal institutions and social structures, forms of critical thought and dialogue, religion, mythology, arts and literature is explicitly treated.

Nota bene: Module contents are offered alternately in successive years. Consult the Department for further details. Details are also available in the departmental brochure and on the Department's webpage at www.su.ac.za/en/faculties/arts/departments/ancient-studies.

2. Second- and third-year students take classes together, but for third-years additional and more advanced reading, more self-study, and more advanced knowledge are required that will be assessed on a more advanced level.

114 (12) Introduction to the Ancient World I (3L, 1P)

Cultures of Southwestern Asia (Anatolia, Levant, Mesopotamia, Persia) and North Africa (Egypt, Sudan, Ethiopia).

We read some of the oldest stories of humanity (in English translation) originally written in the oldest writing systems of the world (e.g. Mesopotamian cuneiform and Egyptian hieroglyphs), namely:

- Epic of Gilgamesh – the world's oldest story about the Mesopotamian king and the question of the meaning of life
- Egyptian short stories – describing travels and social issues
- Ethiopian Kebra Negast – the story of the famous Queen of Sheba

These stories are read in their context. Attention is given to various aspects of culture: the environment, main historical events, writing systems and languages, social and political institutions, technology and buildings, religious and moral values, visual arts and literature – all aspects which still have an influence today.

144 (12) Introduction to the Ancient World II (3L, 1P)

The Greek and Roman cultures.

Introduction to the culture, myths and history of ancient Greece, using Homer's Iliad (a literary account of the Graeco-Trojan War) and Odyssey (the exciting story of one man's journey home from Troy). The interaction between ancient and modern is also explored through modern works inspired by Homer and other ancient traditions concerning the gods and goddesses, heroines and heroes of Bronze Age Greece and Troy.

The second half of the module approaches the ancient Romans through a social-historical study of life in the city of Pompeii before its destruction in 79 CE. Incorporating the works of Roman historians, letter writers and philosophers with the unique archaeological remains of Pompeii and surrounding cities, the goal is to bring the lives of everyday people into sharp focus, as students continue to sharpen the reading, writing and interpretation skills developed in the preceding months.

Recommendation for students intending to pursue Ancient Cultures through to postgraduate level: You are advised to take up an ancient language during the course of your studies. Languages on offer in the Ancient Studies Department are Latin, Greek and Biblical Hebrew. Enquiries: ldam@sun.ac.za or lecturers in the Department.

Ancient Cultures 211, 221, 241, 251, 311, 321, 341 and 351

In the second- and third-year modules, we rotate themes related to social structures, world view, literature, art, mythology and everyday life in the ancient world and their reception in the contemporary world. The third-year modules are more advanced in terms of the level of difficulty, contact time, and number and types of assessment.

351 (12) Advanced Ancient Cultures (2L, 0.5P)

See themes below.

The themes for Ancient Cultures 211, 221, 241, 251, 311, 321, 341 and 351 that are rotated include the following:

Western Asian mythology: Some of the oldest myths and epics originated in ancient Western Asia more than five millennia ago. Myths and epics allowed people to make sense of how the world came into being and how it works. They are important for an understanding of any culture, because they "explain" the origin of the cosmos, worldview and political ideologies.

Ancient Kush (Sudan): One of the great cultures of Africa which need not stand back for Egypt in any way. More pyramids were built than in Egypt, women played an important role as rulers, and they produced some of the oldest pottery in the world. Some argue the culture is more "African" in character than Egypt.

Everyday Life in Kemet (Egypt): Where and how did the people of Kemet live? What did they eat and drink? What work did they do and how did the economy work? What did they do for entertainment and which sports/games were there? What about pets and animals? How did they deal with health issues?

Women of Kemet (Egypt): The life of ordinary women with regard to social and legal position, occupations and professions, love and marriage, health and children, dress and adornment, domestic life and religion (including afterlife). Attention is also devoted to women of power (queens) and divine women (goddesses).

Reading ancient Greek art: This theme explores ancient Greek visual culture in context. Iconic Greek "masterpieces" are examined critically, as well as their reception in later and contemporary art. It also covers heritage and ethical issues, including dilemmas around the ownership and preservation of antiquities and also of culture.

Ancient Drama: The theatre of the ancient Greeks and Romans influenced later dramatic genres. On the African continent classical drama has been an instrument of both reinforcement of colonial ideologies, and as political protest. This theme studies specific tragedies and comedies from antiquity to explore contemporary issues such as exile and displacement, violence against women and patriarchy.

Rome, Empire and Material Remains: Augustus, the first emperor of Rome, used a language of imagery to propagate messages about himself and his empire. The imperial sculptures, buildings, coins, inscriptions, and monuments communicate ideological statements about values, strength, power and authority. This theme investigates the power of images during the Roman Empire and more recent and contemporary examples of visual political propaganda.

Ancient Greek/Roman mythology: The theme covers Greek and the Roman myths through a variety of genres. The topics covered include archaeology and myth; modern theories on the nature and function of myth; the role of mythology in ancient literary works (like Greek lyrical poetry or Roman love poems); the depiction of mythological scenes on ancient vases; myth as a reflection of world view; and myth as propaganda.

53848 Biblical Hebrew

Department of Drama**1. Commencement of classes for Theatre Arts students**

Classes for all senior Theatre Arts students (Level 2, Level 3) and all postgraduate students (Honours, Master's and PhD) can begin before the general commencement of classes. Dates will be communicated in advance.

2. General provisions for Theatre Arts and Theatre Skills subjects

- No student will be permitted to join the Theatre Arts or Theatre Skills subjects late.
- The pass requirement for Theatre Arts and Theatre Skills is a minimum of 50% in each of the subsections of the subjects. A student who does not obtain the required sub-minimum in one or more of the subsections thus does not pass the subject, even though the average mark for the subject as a whole is above 50%. The Department of Drama reserves the right to refuse readmission to the programme to students who have been awarded a final mark of less than 50% or received an incomplete for one or both the subjects Theatre Arts and Theatre Skills.
- Class attendance for Theatre Arts and Theatre Skills is compulsory. Therefore, students who miss more than 10% of the practical classes, even for medical or other acceptable reasons, are normally not permitted to proceed with the subject.
- Because the Theatre Arts and Theatre Skills courses entail extensive physical and psychological involvement by the student, any students with a medical condition that could prevent them from participating regularly in practical classes, must indicate this prior to registration, with supporting documentation from a medical practitioner, for consideration by the Department.
- On account of their interdependence the modules Theatre Arts and Theatre Skills must be presented and taken together at each level (Basic, Intermediary and Advanced). If a student fails or receives an incomplete for any reason, in one module, the student may not continue with the other module on the next level, but must pass the unsuccessful module first. The above is the general rule in this regard, but exceptions can be made in consultation with the Chair of the Department.
- Students in their second and third years may be obliged to remain in Stellenbosch during the two short vacations and on public holidays, as well as for short periods during the winter and summer vacations.

44377 Theatre Arts**Special provisions for Theatre Arts**

Theatre Arts can be taken only as part of the BA degree programme Drama and Theatre Studies and in combination with Theatre Studies and Theatre Skills.

178 (24) Introduction to Acting and Stage Skills (3L, 4P)

Basic skills in acting and improvisation.

Introduction to the technical presentation of a stage production.

Basic theory of stage and costume studies.

Participation in productions only as a member of the technical team.

278 (32) Acting and Production (6P)

Continuation of acting skills and theories of acting, or continuation of technical stage skills and design and practical work on departmental stage productions.

379 (48) Acting and Production (2L, 6P)

Continuation of contents as for 278 as well as practical exploration of alternative theatre practices.

Training in relevant aspects of practice and industry-driven aspects.

52531 Theatre Skills

Specific provisions for Theatre Skills

Theatre Skills can be taken only as part of the BA degree programme in Drama and Theatre Studies and in combination with Theatre Studies and Theatre Arts.

178 (24) Theatre Techniques (6P)

Practical exercises to promote speech, voice development and movement skills or production staging.
Basic theory of speech, voice development and movement or production staging.

278 (32) Speech and Movement 6P)

Continuation of content as for Theatre Techniques 178.

378 (24) Speech and Movement 6P)

Advanced and integrated application of speech, voice- and movement skills or production staging.

14032 Theatre Studies

Specific provisions for Theatre Studies

Theatre Studies can be taken as an independent module in the BA in Drama and Theatre Studies, the BA (Language and Culture) and the BA (Humanities) programmes.

Theatre Studies entails a theoretical study of the nature, history and techniques of drama, theatre, dance and film. Students are not expected to do any practical work, although attendance at theatre productions and other performances is an inherent part of the course as these activities form part of the study material.

114 (12) Introduction to Western Theatre and Principles of Text Study (3L, 1T)

Introduction to basic concepts in theatre studies.

Introduction to techniques and methods of textual analysis and interpretation through a study of selected plays in context as part of a survey of the history of the theatre and of theatre conventions and conditions of Western drama and theatre from the Greeks to Realism.

144 (12) Continued Study of Western Theatre and Principles of Text Study (3L, 1T)

Introduction to techniques and methods of textual analysis and interpretation through examining selected plays in context as part of a historical survey of theatre, theatre conventions and theatre conditions of Western drama and theatre from Realism until the twentieth century.

214 (16) Textual Analysis (3L, 1T)

A thematic study of texts in context with reference to productions, visual material and published texts, including South African material.

Introduction to Earth Systems Science; Internal earth processes; Mineral- and rock-forming processes; Origin of magma and igneous rocks; External structure of the earth; Formation of continents; Plate tectonics; Sedimentary rocks and the geological record; Geological time scale; Metamorphic rocks and mountain building; Geology of South Africa; Energy and mineral resources; Humans and tectonics: earthquakes and volcanoes; The hydrosphere; Surface-water processes; Groundwater processes; Theory of the origin and evolution of life.

This module (154) is presented by the Department of Earth Sciences in the Faculty of Science.

12923 Geographical Information Technology

141 (16) Nature of Spatial Data (3L, 3P)

This module focuses on the fundamentals of geoinformation science and cartography. The module introduces spatial awareness for recognizing patterns and relationships among objects on maps; data collection methods specifically designed for spatial data; data modelling of geographical data as raster or vector; and spatial thinking to explore and understand problems using data from physical, urban and environmental geography contexts. This module will focus on cultivating a sense of professional belonging in future geoinformatics practitioners and geospatial data scientists.

211 (16) Earth Observation (3L, 3P)

Principles of remote sensing and earth observation; the electromagnetic spectrum; reflectance characteristics of various objects on the earth's surface; atmospheric interaction with electromagnetic energy; digital imagery; image resolution; satellite systems; image enhancement and pre-processing; unsupervised and supervised image classification; accuracy assessment; GIS integration.

Corequisite modules: Mathematics 114 or Mathematics (Bio) 124

214 (16) Geographical Information Systems (3L, 3P)

Introductory overview and comprehension of GIS in the context of geo-information science; The nature of geographical data, data models, coordinate systems and map projections; GIS processes: data capturing, ordering and storage, manipulation and analysis; Map design and cartographic visualisation with a GIS; GIS applications.

Corequisite module: Mathematics 114 or Mathematics (Bio) 124

241 (16) Spatial Data Management (3L, 3P)

Map projections and coordinate systems; spatial data modelling (e.g. vector, raster, object-orientated); topology and topological dimensions; topological-dimension conversions; geodatabases; data model and format conversions; data generalisation and aggregation.

Prerequisite module: Geographical Information Technology 141 or Geography and Environmental Studies 214 or Geographical Information Technology 214

242 (16) Digital Photogrammetry (3L, 3P)

Principles of digital photogrammetry; stereo vision and parallax; types of photogrammetry; image sourcing and acquisition; flight planning; sensor orientation and image characteristics; interior and exterior orientation; ground control and tie-point collection; least-squares adjustment and coordinate transformations; image processing (contrast and spectral enhancement, image matching, mosaicing); topographical-map production; GIS integration.

Prerequisite modules: Geographical Information Technology 211; Mathematics 114 or Mathematics (Bio)

311 (16) Spatial Data Acquisition (3L, 3P)

Spatial data types and models, acquisition and creation of spatial data, digitising and scanning, field data collection, global navigation satellite systems, uncertainty and error, data quality, national and international data providers and warehouses, metadata and standards, spatial data as property, data sharing.

Prerequisite module: Geographical Information Technology 241

312 (16) Spatial Analysis (3L, 3P)

Query operations and query languages; Geometric measures; Spatial analytical operations; Surface analysis; Geostatistics; Network analysis; Analysis design; Fuzzy sets.

Prerequisite modules: Geography and Environmental Studies 214 or Geographical Information Technology 214 or Geographical Information Technology 241

341 (16) Spatial Modelling (3L, 3P)

Models in science; Spatial models: types, construction, design and development; Cartographic modelling: terminology, methodology, in and outputs, functions.

Prerequisite module: Geographical Information Technology 312

342 (16) Earth Observation (3L, 3P)

Image pre-processing techniques (e.g. geometric, radiometric, atmospheric and topographic corrections); image transforms; geographical object-based image analysis (GEOBIA); image classification approaches and algorithms; earth observation workflows; image acquisition; GIS integration.

Prerequisite module: Geographical Information Technology 211

56502 Geography and Environmental Studies

Please note:

Geo-Environmental Science 124 and 154 are corequisites for Geography and Environmental Studies 2 and 3.

225 (16) Urban and Tourism Development (3L, 3P)

Urbanised world; Africa in the global context of urbanisation; Developed and developing cities parallel; Internal urban structure; Urban economy (including tourism potential); Housing; Transportation; Future urban form scenarios; Tourism geography concepts; Tourism and mobilities; Tourism development challenges.

Prerequisite module: Geo-Environmental Science 124

265 (16) Environmental Studies (3L, 3P)

Energy, moisture and wind as climatic elements; movement in the atmosphere: air circulation at global, regional and local scales; significant climatic phenomena to humans: El Niño, tropical cyclones and tornadoes; South African weather and climate; atmospheric environmental problems in South Africa: drought, air pollution, floods, hail and frost; analysis of climatic data: collection, processing and interpretation; synoptic maps and weather forecasting. Soil erosion, acid mine water drainage, water pollution, strategic risk management planning.

Prerequisite module: Geo-Environmental Science 124

314 (12) Geography of Tourism (2L)

Geographical concepts and tourism; tourism system; tourism industry; influences on tourism development: environmental and locational aspects, climate change, crime; tourist attractions and destinations; strategic importance for South Africa; transfrontier parks; industrial heritage; tourism environments: ecotourism, archaeotourism, urban tourism, medical tourism, food-and-wine tourism; tourism impacts; tourism development; imitation of place and time; world heritage sites; sustainable destinations.

Prerequisite module: Geography and Environmental Studies 225

323 (12) The South African City (2L)

Theory of urban structure: space and place in Western and Third World cities; transformation of the South African city: colonial to post-apartheid; cultural city image: mosaic of language, ethnic and minority groups; pressing urban problems: housing, service provision, social pathologies, urban management; sustainable urban development; case study: analysis and monitoring of transformation.

Prerequisite module: Geography and Environmental Studies 225

334 (16) Environmental Processes and Hazards (3L, 3P)

Geomorphological processes and physical landscape change in southern Africa relating to weathering, arid landscapes, granite landscapes and coastal zones. An introduction to natural hazards and the relationships between natural processes and biogeophysical hazards. A strong focus on analytic techniques for the assessment of geomorphological processes and natural hazards.

Prerequisite module: Geography and Environmental Studies 265 or Geographical Information Technology 214

358 (16) Environmental Studies (3L, 3P)

Geomorphology of South African rivers and drainage basins: run-off regime, basin morphology, stream and channel patterns; human-induced changes in rivers and river basins: impoundment, canalisation, interbasin transfers; water quality in South Africa: interaction between humans and the environment with special reference to industrial and agricultural pollution; use, development and management of South African water resources: impact of the Water Act. South African environmental policies; Environmental impact assessment process.

Prerequisite module: Geography and Environmental Studies 265 or Environmental Geochemistry 214.

363 (12) Geographic Communication (3L, 3P)

Introductory survey and understanding of GIS; The nature of geographic data, data models, co-ordinate systems and map projections; GIS processes: data capture, classification and storage, manipulation and analysis; Map design and cartographic visualising with GIS; Application of GIS.

Prerequisite module: Geo-Environmental Science 124

Department of History

13463 History

114 (12) Introduction to the Main Global Patterns and Developments in History (3L)

Nomadic societies.

The agriculture revolution and the emergence of established societies.

The development of complex societies.

The emergence of modernity and the industrial revolution.

The historical construction of the modern globalising world.

144 (12) Survey of South African History (3L, 1T)

Debates on the settlement of population groups in South Africa.

Clashes in the interior: the historical significance of 19th-century migrations.

The mineral revolution and its impact on modern South Africa.

Afrikaner nationalism as a historical factor.

Segregation and apartheid.

Black nationalism and politics in the 20th century.

South Africa and the outside world.

214 (16) Key Processes in the Making of Western History (3L, 1T)

State formation, the Renaissance and revolutions:

- Origins of the modern state.
- The Renaissance as cultural phenomenon.
- Origins, dynamics and impact of historical revolutions.

Wealth and poverty in Western history:

- Changing views and attitudes.
- Perspectives on systems such as socialism, capitalism and communism.
- Dimensions of the culture of wealth and poverty.

244 (16) Africa and South Africa: Colonisation and the Rearrangement of Societies (3L, 1T)

Africa and the West in the 19th century:

- Colonial policies in Africa.
- The political, cultural and economic impact of the colonisation of Africa in the 19th century.

South Africa in the 18th and 19th centuries:

- The political and cultural dynamics of 18th- and 19th-century Cape societies.
- The establishment of new black empires and white republics in the interior in the 19th century.
- The mineral revolution: the making of a new political and cultural social order.

318 (24) Twentieth Century History: A Global Perspective (4L, 2T)

Selected themes in twentieth century history from political, environmental and social history perspectives, including:

- Global social, environmental, economic, demographic, and political shifts and cultural change: religion, gender, and class.
- Changes in the civil society, education, the arts, and science in the twentieth century.

Engagement with the basic idea of historiography and basic historical methodology.

Colonial liberation and nation building in the 20th century:

- The end of the formal imperial era.
- Independence movements in Africa and India.
- New states.
- Cultural dimensions of independence: the search for a "pure" African culture in a globalising world.
- Africa in a globalising world.

348 (24) South Africa in the 20th Century (4L, 2T)

Perspectives on the Anglo-Boer War.

Wealth and poverty as persistent factors in 20th-century South Africa.

Cultural and political dimensions of the rise and disintegration of Afrikaner nationalism.

Perspectives on apartheid.

The growth and dynamics of black political organisations and the change in power relations in 1994.

Women and change in South African society.

American cultural influences on black and white South Africa in historical perspective.

Department of Information Science**14689 Organisational Informatics**

Please note the following admission requirements:

Students who enrol for the subject Organisational Informatics must have either 50% in Mathematics or at least 70% in Mathematical Literacy in the NSC.

214 (16) Principles of Information Systems (3L, 1T)

This is a theoretical module that covers the core principles of information systems and how they are developed, used, and managed in contemporary practice. Students will cover themes such as technological infrastructure of information systems, the role of information systems in business operation, and the management of information systems development projects.

244 (16) Introduction to Application Design (2L, 2P)

This module introduces students to computer application development on both a theoretical and a practical level. The module does not require students to have any prior computer programming experience. An understanding of fundamental concepts in programming, such as data types, variable, input, output, flow control (including iteration and decision structures), modules and functions is established. Students implement these principles through the use of a contemporary programming language. Additionally, students will learn about key web development standards such as HTML and CSS.

Please note: This module may not be taken alongside or following Computer Science 114.

318 (24) Systems Analysis and Design (3L, 3P)

This module addresses systems analysis and design in the context of information systems projects. It adopts a practical orientation and aims, firstly, to expose students to the key principles of information systems analysis and design from the perspective of a systems analyst. Systems analysis activities and the associated documentation and the modelling standards are presented. This is followed by the essential aspects of systems design, including the relevant techniques and standards. Students apply these principles through practical case-based-assignments.

Prerequisite modules:

- Organisational Informatics 214
- Organisational Informatics 244 **OR** Computer Science 114.

348 (24) Systems Development (2L, 4P)

This module integrates and extends knowledge and skills from prior modules in Socio- and Organisational Informatics. The module covers systems development approaches and project management, as well as advanced design and deployment concepts. Students execute a group-based project to design and develop a fully functional information system, using appropriate modern development technologies, design approaches and project management methodologies.

Prerequisite module: Organisational Informatics 318

*Prerequisite pass modules: Organisational Informatics 244 **OR** Computer Science 114*

58173 Socio-Informatics

114 (12) Knowledge and Technology in Society (3L)

This module introduces students to the rise and nature of the knowledge economy and society. The module adopts a historical perspective which traces the role of knowledge accumulation and dissemination in human societies from the cognitive revolution to the present day. This development timeline emphasises the agricultural revolution, knowledge accumulation in the ancient world, the development of market societies, the scientific revolution, the industrial revolution, and the digital revolution. Throughout the investigation of these important phases of human development the module considers the interaction between knowledge, technological advancement and economic activity. The module will conclude by requiring students to consider a range of contemporary debates concerning the economic and social impacts of emerging computing technologies.

144 (12) Digital Media and Society (3L)

In the 21st century, digital media and human behaviour have become irreversibly intertwined. This module explores what it means to live in a digital society. Digital media are tools, channels, platforms and strategies which we can use to obtain, produce, and share knowledge about the world around us, through communication and interaction. The module covers the key concepts, debates and theories that are relevant to digital media, social media and society, data and society, and the internet. This includes investigation of digital citizenship, mobile culture, software, algorithms and data, and considers the role of digital media in social research.

214 (16) Interaction Design (2L, 2P)

This module concerns the design of interfaces for computer applications (e.g., web and mobile applications, business information systems). Students will be introduced to current approaches to information architecture and application structure, and to the key elements of interface design. The module has a practical orientation in which a modern design platform is used to perform practical assignments,

244 (16) Information Society (3L, 1T)

Pervasive digital media, expanding information occupations and the developments of the internet have combined to give rise to the global information society. In this module, students will study this information explosion by critically examining the major theoretical approaches to informational development through the work of prominent theorists such as Castells, Schiller, Habermas and Giddens.

348 (24) Computational Social Science (3L, 3P)

This module introduces students to the inter-disciplinary field of computational social science, which combines insights from computer and information science, sociology and social network analysis, economics, political science and public health in order to equip students to answer social science questions using computational methods. Students are not expected to have any prior programming knowledge. Students will learn to ask social science questions, and answer these questions by collecting and analysing data from digital sources. Students will acquire skills in data analysis programming languages and in data analysis techniques for working with digital trace data.

Department of Journalism

14507 Knowledge Skills

172 (6) Knowledge Skills (1L, 1P)

This module is designed to equip students with skills needed for knowledge-building in the Humaniora, including:

- using selected software programmes that include word processing, data processing and presentation,
- accessing library resources and building searches on academic databases,
- using existing academic research ethically, and consistently applying referencing methods; and
- navigating online communities as active and responsible digital citizens.

Department of Modern Foreign Languages

11302 Chinese

Special provisions for Chinese

1. **Chinese 178** is a module for beginners. No previous knowledge of Chinese is required. The module is designed to provide basic intercultural communication skills. It enables students to understand, speak, read and, to a lesser degree, write contemporary Chinese in everyday situations, which includes a basic knowledge of the present-day situation in China.
2. All modules are assessed according to the Faculty Assessment Plan.
3. Chinese is offered as a foreign language and therefore Chinese-speaking students are not allowed to follow the modules.
4. Further details of all modules are available in the Department's study guides and on the webpage at www.su.ac.za/en/faculties/arts/departments/modern-foreign-languages.

178 (24) Introduction to the Chinese Language and Culture (3L, 1P, 1T)

Introductory language study, including phonetics.

Introduction to contemporary China based on a selection of topics.

Note

Chinese 178 is a module for beginners. No previous knowledge of Chinese is required. The module is designed to provide basic intercultural communication skills. It enables students to understand, speak, read and, to a lesser degree, write contemporary Chinese in everyday situations, which includes a basic knowledge of the present-day situation in China.

278 (32) Continued Study of Chinese Language and Culture (4L, 1P)

Continued language study.

Basic concepts and principles of Chinese as a foreign language.

Comparative study of culture based on a selection of topics.

Study of texts on these topics.

Prerequisite pass module: Chinese 178

318 (24) Intermediate Study of the Chinese Language and Culture I (5L)

Intermediate language study.

Chinese literature.

Comparative contemporary culture based on a selection of topics.

Study of texts on these themes.

Prerequisite pass module: Chinese 278

348 (24) Intermediate Study of the Chinese Language and Culture II (5L)

Intermediate language study.

Chinese literature.

Comparative contemporary culture based on a selection of topics.

Study of texts on these themes.

Prerequisite pass module: Chinese 318

13145 French

Specific provisions for French

1. **French 178** is offered for beginners; no prior knowledge of French is required. The module is designed to provide basic intercultural communication skills. It enables students to understand, speak, read and, to a lesser degree, write contemporary French in everyday situations, which includes a basic knowledge of the present-day situation in France.

French 188 makes special provision for students who passed French in Grade 12 or who, in the opinion of the Department, have reached an equivalent standard.

Students who passed French in Grade 12 but who, according to the departmental Chair, are not sufficiently prepared for French 188, may be allowed to register for French 178, following early assessment and/or a departmental aptitude test.
2. The second- and third-year courses lead to advanced proficiency in intercultural communication. Like the first-year courses, they focus on the present-day situation, but also include its historical dimension. The emphasis falls on students' ability:
 - a) to understand and to use texts (in the extensive meaning of the term) by way of contrasting cultures, which requires, among other things:
 - o an insight into communication processes,
 - o an understanding of the basic principles of text analysis,
 - o a critical awareness of the differences between source and target culture;
 - b) to demonstrate the above skills both orally and in writing. Self-tuition courses and computer modules are provided to improve and enhance the acquired knowledge, insight and skills.
3. At the end of every year students may take the respective DELF/DALF examinations of the French Department of Education.
4. All modules are assessed according to the Faculty Assessment Plan.
5. At the undergraduate level, French is taught as a foreign language and for this reason the following groups of students are excluded from undergraduate modules in French: French-speaking students and students who spend extended periods of time in Francophone countries and who, in the opinion of the Department, do not qualify as learners of French as a foreign language.
6. Further details of all modules are available in the Department's study guide and on the web page at www.su.ac.za/en/faculties/arts/departments/modern-foreign-languages.

178 (24) Introduction to the French Language and Culture (3L, 1P, 1T)

For students without French in Grade 12.

Introductory language studies.

Introduction to contemporary French culture and French-speaking societies on the basis of selected topics.

Study of elementary literary texts.

188 (24) Intermediate Study of the French Language, Literature and Culture (4L)

For students with French in Grade 12.

Intermediate language studies with particular emphasis on vocabulary.

French and Francophone literary texts.

278 (32) Continued Study of the French Language, Literature and Culture (3L, 1P, 1T)

Continued language studies.

Basic concepts and principles of French as a foreign language.

Comparative cultural studies on the basis of selected topics.

Study of literary texts based on these topics.

Prerequisite pass module: French 188

318 (24) Advanced Study of the French Language, Literature and Culture I (4L, 1P)

Advanced language studies.

Study of French texts (including hypertext and film).

Practical language skills with reference to professional applications.

Prerequisite pass module: French 278

348 (24) Advanced Study of the French Language, Literature and Culture II (4L, 1P)

Advanced language studies.

Study of French texts (including hypertext and film).

Practical language skills with reference to professional applications.

Prerequisite pass module: French 318

26107 German

Specific provisions for German

1. **German 178** is offered for beginners; no prior knowledge of German is required. The module is designed to provide basic intercultural communication skills. It is a high intensity module aiming to enable students to understand, speak, read and, to a lesser degree, write contemporary German in everyday situations; this includes acquiring a basic knowledge of the present-day situation in the German-speaking countries.

German 178 normally gives access to German 278. Students who do exceptionally well in German 178 may be granted access to German 288 by means of a Departmental recommendation and the writing of a special entrance examination. This examination is written in the first two weeks after the start of classes in February. If these students fail German 288, they may fall back to German 278 in the following year.

German 188 makes special provision for students who passed German in Grade 12 or who are in possession of an equivalent qualification. Students proceed from German 188 to German 288. Students who passed German in Grade 12 but who, according to the Departmental Chair, are not sufficiently prepared for German 188, may be allowed to register for German 178 following early assessment and/or a departmental aptitude test.
2. Students who passed German (Mother-tongue) in Grade 12 with a B symbol or higher can, on the Department's recommendation through the Senate or the Executive Committee acting on the latter's behalf, be admitted directly to German 288, provided that they pass a special admission examination during the first two weeks after the start of classes in February. To comply with the credit requirements for a BA, such students must take another language or General Linguistics at first-year level.
3. The second- and third-year courses lead to advanced proficiency in intercultural communication. Like the first-year courses, they focus on the present-day situation, but they include its historical dimension. The emphasis falls on students' abilities:
 - a) to understand and to use texts (in the extensive meaning of the term) by way of contrasting cultures, which requires, among other things,
 - o an insight into communication processes,
 - o an understanding of the basic principles of text analysis,
 - o a critical awareness of the differences between source and target culture;
 - b) to demonstrate the above skills both orally and in writing. Self-tuition courses and computer modules are provided to improve and enhance the acquired knowledge, insight and skills.
4. Based on a recommendation by the Department, students who do exceptionally well in German 278, may continue with German 328 and after that with German 358. If these students fail German 328, they may fall back to German 318 in the following year.

In their third year, students' language skills are developed up to the level of the Goethe-Zertifikat B1 examination of the Goethe Institute.
5. Flexible assessment is used in all undergraduate modules.
6. Further details of all modules are available in the Department's study guide and on the web page at www.su.ac.za/en/faculties/arts/departments/modern-foreign-languages.

178 (24) Introduction to the German Language and Culture (3L, 1P, 1T)

For students without German in Grade 12.

Introductory language study.

Introduction to contemporary culture on the basis of selected topics.

Analysis of texts related to these topics.

188 (24) German Language, Literature and Culture of the 20th and 21st Centuries (3L, 1T)

For students with German in Grade 12.

A cultural-historical overview of the period on the basis of selected topics.

Analysis of German literary texts related to these topics.

Intermediate language studies.

Please note: There is only one German 188 class group per year. If you qualify to take German 188 but have a timetable clash, you will not be allowed to take German 178 instead, as German 178 caters for beginners only. Students from other faculties (e.g. BCom International Business students) taking German 188 should choose German in their first year to avoid timetable clashes in later years.

278 (32) Intermediate Study of the German Language, Literature and Culture (3L, 1P)

Continued language study.

Concepts and principles of German as a foreign language.

Comparative Landeskunde, based on selected topics.

Analysis of texts related to these topics.

Prerequisite pass module: German 178 (or German 188 in certain cases)

288 (32) German Language, Literature and Culture from the 18th Century to the Present (3L)

A cultural-historical overview of the period on the basis of selected topics.

Analysis of texts related to these topics.

Advanced language study.

Prerequisite pass module: German 188 (or German 178 in certain cases)

318 (24) Advanced Study of the German Language and Culture I (2L, 2P)

Advanced language and cultural studies by means of a variety of texts and themes.

Prerequisite pass module: German 278 (or German 288 in certain cases)

328 (24) Advanced Study of the German Literature and Culture I (3L, 1P)

Advanced Study of Literature including film and media.

Advanced Study of Culture.

Advanced Study of Language.

Prerequisite pass module: German 288 (or German 278 in certain cases)

348 (24) Advanced Study of the German Language and Culture II (2L, 2P)

Advanced language and cultural studies by means of a variety of texts and themes.

Prerequisite pass module: German 318

358 (24) Advanced Study of the German Literature and Culture II (3L, 1P)

Advanced Study of Literature including film and media.

Advanced Study of Culture.

Advanced Study of Language.

Prerequisite pass module: German 328

71039 Spanish

Specific provisions for Spanish

1. Spanish 178 is offered to beginners, so no prior knowledge of Spanish is required. The module is designed to provide basic intercultural communication skills. It is a highly intensive module aimed at enabling students to understand, speak, read and write contemporary Spanish in everyday situations. Students will also acquire a basic knowledge of the present-day situation in Spain and Latin America.
2. The target level for Spanish 178 is equivalent to the A2 level described in the curriculum of the Cervantes Institute. At the end of every year, students may take the respective Diplomas of Spanish as a Foreign Language (DELE) examinations.

3. At the undergraduate level, Spanish is taught as a foreign language and for this reason the following groups of students are excluded from undergraduate modules in Spanish: Spanish-speaking students and students who spend extended periods of time in Hispanophone countries, students who passed Spanish in Grade 12, and students who, in the opinion of the Department, do not qualify as learners of Spanish as a foreign language.
4. All modules are assessed according to the Faculty Assessment Rules and a flexible assessment approach will be followed.
5. Further details of all modules are available in the Department's study guide.

178 (24) Intensive Introduction to Spanish Language and Culture (3L, 1P, 1T)

This module is an intensive introduction to Spanish language and culture. Through engaging with a variety of selected topics and texts, students will explore contemporary Spanish culture and the diverse societies within the Spanish-speaking world. Students will actively develop Spanish language skills, enabling them to comprehend written and spoken texts, identify key linguistic elements, and construct coherent written pieces. Furthermore, they will participate in spoken interactions.

Department of Music

General information for prospective students

All programmes in the Department of Music are selection programmes. During the selection audition candidates must provide proof of the prescribed standard as required for each programme.

1. Practical Music Study

- 1.1 **Choice of instrument:** The Music Department offers the following: Keyboard instruments (Piano, Harpsichord and Organ), Recorder, Guitar, Voice, Saxophone, any instrument of the Symphonic Orchestra, as well as Conducting and Church Music (a combination of organ and choral conducting). From the third year in the BMus programme, within the Practical Performance specialisation, it is also possible to major in Chamber Music and Accompaniment.)

Students are only permitted to register for a maximum of two instruments, of which at least one must be a major instrument (A level).

- 1.2 **Practical Music Study A:** The first-year entry level is equal to that of Grade VII Unisa examination standard. All first-year degree and diploma students must register for either Practical Music Study A (24) or Practical Music Study A (36).
- 1.3 **Practical Music Study B:** All first- and second-year BMus students may also register for another practical subject in which a level of at least Grade V Unisa examination standard must be achieved within the first year. Practical Music Study B(12) is offered in group context. Students may opt to register for the second instrument as Practical Music Study A(12), in which case tuition will be offered individually. Admission is subject to a selection process and/or audition, as well as the availability of staff.

Where piano accompaniment is required for those who take instruments or voice, students are personally responsible for the engagement of an accompanist and to cover the financial costs incurred.

Practical Music Study A and B combinations:

BMus (first and second year)

- Practical Music Study A(36), if the student only plays the main instrument;
or
- Practical Music Study A(24) main instrument, plus
Practical Music Study B(12) second instrument (group tuition)
or
- Practical Music Study A(24) main instrument, plus
Practical Music Study A(12) second instrument (individual tuition)

In the third year, only Practical Music Study A is continued, on two different credit levels (24 or 12), depending on the student's specialisation route.

BAMus (first to third year)

- Practical Music Study A(24)

BAMus students may register for a second instrument as "Konservatorium student". Admission is subject to a selection process and/or audition, as well as the availability of staff.

- 1.4 **Practical Music Study S:** For students who have demonstrated sufficient potential for solo performance during an assessment of Practical Music Study 2A. These students may register from their third year for Practical Music Study S level (performance level). Admission is subject to a selection process and/or an audition.
- 1.5 **Practical Music Study E:** Only applicable to *non-music students*, i.e. university students who are registered for Practical Music Study as an extra subject, on a part-time basis. Admission is subject to selection and to the availability of full-time practical staff. This module can be taken on A or B level (on a comparable standard as for BMus students). Students who take this module on the B level must, in addition to their practical work, also submit two assignments (one per semester). In consultation with their practical lecturers, the assignments may be in the field of history or theory of music.

Students may only register for Practical Music Study E after they have done an audition and have written permission from the Music Department.

Where piano accompaniment is required for those who take instruments or voice, students are personally responsible for the engagement of an accompanist and to cover the financial costs incurred.

Konservatorium students: The following persons may register for practical tuition as "Konservatorium student" at the Music Department (pending selection and availability of staff):

- Full-time music students (who wish to study more instruments (or voice), students than required for their degree/diploma or certificate programme), e.g. BAMus students who wish to register for more than their main instrument.
- Other Stellenbosch University students, as well as learners from outside the University. SU students may choose to take the Department's practical examinations.

Where piano accompaniment is required for those who take instruments or voice, students are personally responsible for the engagement of an accompanist and to cover the financial costs incurred.

2. Orchestral Practice

This is a compulsory module (co-requisite) for all students who take an orchestral instrument as their *Major instrument*.

Orchestral Practice is a compulsory attendance subject for students who register for Practical Music Study A 378 and 478 as orchestral instrument. Unsatisfactory attendance will result in a penalty.

Students should note that attendance at all rehearsals (as members of recognised orchestras within the department) is compulsory. This may result in some students being required to participate in more than one ensemble.

Practical Music E students, Konservatorium students and students who take an orchestral instrument as a second main instrument, are strongly advised to participate in one of the Department's orchestras, in consultation with the lecturer concerned.

3. Integrated Academic Support

Students who, during the selection process for the degree programmes in music, are identified as requiring academic support, must register for the bridging module Musicology 271 (Music Skills) as an additional subject, and also take part in any other kind of bridging work prescribed by the Department. Students are required to pass this module before they will be allowed to proceed with Music Theory 222 and 252.

Alternatively, students who have deficiencies over a wide range of music skills may first be advised to complete the entire year of the Higher Certificate in Music at the Department of Music before they reapply for admission to one of the degree programmes in music in the following year.

The Department of Music also offers a three-year Diploma (Practical Music), specifically for students who would like to specialise in the practical aspects of music at an advanced level, but for whom, because of limited theoretical and/or academic background, the degree programmes in music are not accessible.

4. BA subjects

BMus students should note that only certain BA subjects which appear on the official timetable of the University are taken into consideration by the Department when setting up its internal class timetable, thus enabling music students to choose these traditionally sought-after BA subjects.

NB: Should Mathematics 114 and 144 be chosen in the first year, Grade 12 Mathematics code 5 (60%) is a prerequisite.

5. Mark calculation

Marks in all modules are calculated according to the latest assessment policy of the Faculty. The details of this calculation are given in the respective module frameworks.

6. Lectures (L) and Tutorials (T)

Class lectures and tutorials are normally 50 minutes in length; all weekly practical under- and postgraduate lessons are units of 60 minutes or more.

7. Concerts and Performance Classes

Students should also be aware that it is compulsory to attend a prescribed number of concerts presented by the Konservatorium and the Performance Classes presented by the Music Department.

In both instances unsatisfactory attendance will result in a penalty.

324 (12) Phenomenology and Existentialism (2L, 1T)

Phenomenology as philosophical method and its relationship to existentialism (resp. existential phenomenology).

Central themes and ideas in the work of philosophers such as Edmund Husserl, Martin Heidegger, Maurice Merleau-Ponty and Jean-Paul Sartre.

333 (12) Philosophy of Race (2L, 1T)

This module will introduce the student to the contemporary philosophy of race. Focus areas in this module may include the metaphysics of race that pay particular attention to the differences between realist and anti-realist views, as well as deflationism about race. This module will introduce the student to debates about the use of racial terminology in social, scientific and political settings. The module aims to give the student a good grounding in understanding the debates about the nature of race in the social and natural sciences, including how these debates spill over into the problems of race in everyday life.

341 (12) Philosophies of Resistance (2L, 1T)

This module offers an introduction to non-mainstream philosophical voices, authors and concerns. It critically enquires about the foundations, borders, key questions and the canon of the discipline, including its relation to other disciplines and styles of writing. Critical philosophical writings emerging from the margins and fault-lines of the traditional discipline, such as Black feminist, critical legal and critical social, African and Africana, and decolonial texts, will be studied. Authors may include scholars like Theodor Adorno, Lewis Gordon, bell hooks, Emmanuel Levinas, Christina Sharpe, Frantz Fanon, Nelson Maldonado-Torres, Adriana Caverero, Sanya Osha, Achille Mbembe and Sundhya Pahuja.

354 (12) Analytic Philosophy (2L, 1T)

The origins of analytic philosophy and philosophical logic (Moore, Russell, Frege, Wittgenstein). Themes may include:

- Logical positivism (e.g. Schlick, Carnap, Neurath, Feigl, Waismann, Ayer).
- Linguistic analysis/philosophy of ordinary language (e.g. Wittgenstein, Ryle, Austin).
- Scientific naturalism (e.g. Quine).
- Philosophical logic and the understanding of modality (e.g. Kripke, Putnam).
- Philosophy of mind: the analysis and evaluation of functionalism (e.g. Ryle, Putnam, Dennett, Searle, Chalmers).

364 (12) Political Philosophy (2L, 1T)

Themes such as the nature and justification of the state, the social contract, the sources of political legitimacy, and the nature of and conditions for freedom.

Moral principles for the distribution of benefits and burdens among members of a society, e.g. fairness, equality, liberty, desert, need, communality and well-being.

Problems relating to poverty, inequality and property ownership.

Note

A minimum of five out of the six modules are offered every year. Third-year students take at least two of the three modules per semester.

354 (12) Political Analysis (2L, 0.5T)

This module is an introduction to political analysis. The module offers an overview of analytical tools which can be applied when analysing political processes. It will also focus on the theory and practice of public policy and political risk analysis.

364 (12) International Relations of Africa (2L)

Africa's international position and role; inter-state relations on the continent; relations with selected external actors.

Department of Psychology

Important notice to all students wishing to study Psychology

Students wishing to proceed to postgraduate study in Psychology are warned that there is enormous pressure for places in the Honours programme in Psychology and in the Psychology Master's programme in Clinical Psychology. The vast majority of people who meet the basic stipulated requirements for admission to these degrees will not be offered places because of the pressure on space and stringent selection processes. Students with an interest in postgraduate study in psychology are advised:

- to ensure that their undergraduate performance is exceptionally good;
- if they are interested in a career in clinical or counselling psychology, to gain extra experience in human service work through volunteer or other relevant opportunities;
- to be able to demonstrate at least basic proficiency in an indigenous South African language apart from Afrikaans;
- to plan their curricula so that they consider alternative career paths, as, even if they meet all the above criteria, they may not be admitted to Honours or Master's study in Psychology.

Department of Sociology and Social Anthropology**19003 Sociology****Important provisions for Sociology**

1. If you are taking Sociology 3 as a major subject, then Sociology 314 (first semester) and 364 (second semester) are compulsory modules. Students then choose between Sociology 324 and 333 in the first semester and choose between 344 and 345 in the second semester. Please note that 324 and 333 in the first semester and 344 and 345 in the second semester cannot be taken together due to timetable clashes.

114 (12) Introduction to Sociology and Social Anthropology (3L)

Introduction to conceptual and theoretical themes in Sociology and Social Anthropology, including discussions on social inequality, social stratification, culture, identity (including gender, "race" and ethnicity), socialisation, and age in the context of a life course perspective. Discussion themes are grounded in social theory and methodological approaches in the social sciences.

144 (12) Social Issues in South Africa (3L)

A selection of social issues that reflect the complexity of contemporary South African society. Examples of themes are poverty and development; social institutions such as the family, education and religion; crime and violence; health, the body and sexualities; political and economic relationships; work and employment; migration; and the environment.

212 (8) Poverty, Development and the Environment (1.5L, 0.5T)

Debates on the causes and meaning of poverty, inequality and development; critical thinking on underdevelopment and "sustainable development"; and the environment.

222 (8) Social Identity and Inequality (1.5L, 0.5T)

Sociological understandings of the intersection of race, gender, sexuality, class and age as sources of identification, dimensions of power, and inequality in South Africa and elsewhere.

242 (8) Sociology of Communication (1.5L, 0.5T)

An introduction to communication and media as a broad domain of enquiry; the social implications of information and communication technologies; the internet and networked societies; the particular role that digital technologies play in the mediation of ideas about social organization, from the local to the global.

252 (8) Industrial Sociology (1.5L, 0.5T)

Central concepts, themes and debates within the field of industrial sociology, including an assessment of how work has changed through different eras; different interpretations of work and the impact of globalisation on the transformation of work; workplace restructuring, employment practices; trade unions and the management of conflict within the workplace in South Africa.

314 (12) Sociological Theory (2L, 0.5T)

(Compulsory module should Sociology 3 be your major subject)

Social contexts of thought; historical development of sociological thought; selected theoretical perspectives such as functionalism, critical sociology, Marxism, symbolic interactionism, feminism, postmodernism.

324 (12) Political Sociology (2L, 0.5T)

The relationship between power, authority and governance systems, the impact of civil society on the state, the emergence of new social and political forces; influence of social movements; the effect of militarism, terrorism, violence and armed conflict on society.

333 (12) Environmental Sociology (2L, 0.5T)

An introduction to the field of environmental sociology; sociological approaches to contemporary environmental issues and problems, particularly as they pertain to South Africa and the Global South.

344 (12) Sociology of Work and Employment (2L, 0.5T)

The changing nature of work, employment and way of life and the effect on society, including gender relationships; new forms of work organisation. Concepts and theories are applied with specific reference to the developing world and South African economy.

This is a choice module in the second semester. Due to timetable clashes this module cannot be taken together with 345.

345 (12) Sociology of Media and Culture (2L, 0.5T)

The module introduces students to the sociology of media and culture. It builds on the more general insights into the sociology of communication developed in Sociology 242 (Sociology of Communication). The module is designed and organised around different approaches in media sociology as an emerging field globally, with a particular focus on South Africa and the Global South. It considers historical developments in the sociology of media and culture, the making of publics and counterpublics and the role of new media forms in shaping public engagement in periods of social and political transition.

In addition to introducing students to the field of the sociology of media and culture and debates about the public sphere, the module includes topics such as the historical sociology of the emergence of particular media forms, the public dimension of media and culture through a sociological lens; how mass media and technology change our conceptions of public fora and discourse; and how the field of media has been regulated and policed.

The module is designed for sociology students with an interest in how media informs new sociological questions and offers a foundation for postgraduate studies in and beyond the Department of Sociology and Social Anthropology.

This is an elective module in the second semester. Due to timetable clashes, this module (345) cannot be taken together with 344.

364 (12) Social Research (2L, 1P)

Language Centre**59447 Professional Communication****113 (8) Professional Communication (2L, 1T)**

Effective communication with various target audiences with specific objectives in mind; particular focus on the planning and writing of a technical report; other document types in the professional environment such as proposals and correspondence; text skills, such as coherence, appropriate style and text structure; appropriate referencing methods; introduction to oral presentation skills; written communication in teams.

Project

64866 Scientific Communication Skills**116 (12) Scientific Communication Skills (3L, 3T)**

For students in the BSc (extended curriculum programmes). This module focuses on the development of speaking, listening, and reading skills in the academic environment in general and specifically in the natural sciences. Aspects such as engaging with and understanding relevant academic and natural science texts, understanding text components, the use of fluent, correct and proper language, and the interpretation of graphic data, will be addressed.

146 (6) Scientific Communication Skills (3L)

For BSc students in the BSc (extended curriculum programmes). This module focuses on the development of writing skills in the academic environment in general and specifically in the natural sciences. Aspects such as engaging with and understanding relevant academic and natural science texts, understanding text components, presenting data in an edited and coherent text, the use of correct and proper language, the employment of accurate language, correct referencing technique and using graphics to clarify data will be addressed.

172 (8) Scientific Communication Skills (2L)

The development of the basic principles of scientific and academic communication, with a focus on reading, writing, listening and speaking in the academic (formal) context; engaging with and understanding relevant academic and scientific texts; understanding text components; presenting data in a coherent, edited text; using referencing methods correctly to avoid plagiarism; using graphics to clarify data.

12761 Writing Skills**171 (10) Writing Skills (1L, 1T)**

The focus of this module is on the development of reading, writing and thinking skills in the academic environment in general and specifically within a legal context.

Extended curriculum programmes (ECPs)

In order to obtain their degrees, ECP students must pass the following modules: Knowledge Skills 174, Academic Literacies 112, Critical Thinking 142, Disciplinary Worlds 152, Working with Concepts 113 and Research Literacy 153.

14507 Knowledge Skills

This module is presented by the Department of Journalism. Direct any enquiries to knowledgeskills@sun.ac.za.

174 (12) Knowledge Skills (1L, 2P)

This module is designed to equip students with skills needed for knowledge-building in the Humaniora, including:

- using selected software programmes that include word processing, data processing and presentation,
- accessing library resources and building searches on academic databases,
- using existing academic research ethically, and consistently applying referencing methods; and
- navigating online communities as active and responsible digital citizens.

14894 Academic Literacy

112 (16) Academic Literacies (3L, 1T, 1P)

This module equips students with the fundamental skills necessary to effectively navigate the complexities of academic reading, writing, and critical analysis across the Humanities and Social Sciences disciplines. Students will develop a comprehensive understanding of core concepts in language and literacy while honing their ability to deconstruct and synthesize complex academic texts.

14895 Critical Thinking

142 (12) Critical Thinking (3L, 1T)

This module continues the development of knowledge, capacities and skills in reading and writing academic texts, as introduced in Academic Literacy 112. In particular, this module is directed toward the study of critical thinking, argumentation and logical fallacies.

14896 Disciplinary Worlds

152 (12) Disciplinary Worlds (3L, 1T)

This module equips students with the skills to navigate different disciplinary "worlds" by guiding students to understand key differences in the values, goals, assumptions, languages and epistemologies held by members of different disciplinary communities in the humanities and social sciences. Students are guided towards understanding how scholars in various disciplines focus their attention on understanding a particular aspect of the human experience in a way that is typical of their discipline.

71038 Working with Concepts

113 (12) Working with Concepts (3L, 1T)

This module introduces students to core concepts in a variety of humanities and social science disciplines in order to better prepare them for their studies in these disciplines.

71037 Research Literacy

153 (12) Research Literacy (3 L, 1T)

This module provides the student with the knowledge and skills to understand and conduct social research at an introductory level with a particular focus on the objectives of social research, research ethics, the research process, qualitative and quantitative methods of data collection and analysis, and the genre of the research report.

Research and Service Bodies

In this chapter the research and service bodies that reside in the Faculty of Arts and Social Sciences are presented.

1. Africa Open Institute for Music, Research and Innovation

Africa Open is an interdisciplinary and transdisciplinary institute for music, research and innovation in Africa located in the Faculty of Arts and Social Sciences. Africa Open incorporates the Documentation Centre for Music (DOMUS), housed as a Special Collections section of the Music Library, which is part of the Stellenbosch University (SU) Library and Information Service. Africa Open is a Type II institute.

The vision of Africa Open is to create the largest, safest, technologically most advanced open access music archive in Africa, while providing leading edge, networked intellectual space for research, innovation and critical thinking focused on creative music projects in an African context. Africa Open engages in the following core activities:

- **Heritage Preservation:** As a core asset of Africa Open, DOMUS will continue to order, catalogue and extract value from collections acquired by or bequeathed to it, with particular emphasis on community imperatives.
- **Creation of Open Access:** The digitisation of Africa Open's collections and its presentation on open-source technology platforms will create access to engage with a growing community of international researchers, composers and performing artists.
- **Independent Research:** Africa Open will bring together diverse and knowledgeable teams of researchers and artists to engage with and develop interdisciplinary and innovative perspectives on disciplinary challenges.
- **Collaborative Research:** Through a Visiting Fellows Programme, Africa Open will facilitate creative encounters across continents, musical genres and multiple contexts.
- **Postgraduate Research:** Through its affiliation with the University of Stellenbosch, Africa Open's growing depository of documents and artefacts will provide material for Master's, Doctoral and Post-doctoral studies and capacity to supervise such students, while simultaneously improving the quality and value of Africa Open's data assets.
- **Postgraduate Degrees:** Students who choose to read towards postgraduate degrees in disciplines associated with specific departments, for example Music, will register for Master's and PhD degrees as defined in the SU Yearbook for such departments.

2. Centre for Applied Ethics

History

The Centre for Applied Ethics is an interdisciplinary research and service institution located in the Department of Philosophy.

Objectives

The thematic aims of the Centre are to identify and analyse the problems that arise when ethical norms are applied in decision-making processes in fields such as the following:

- Research, therapeutic and supply practices in medicine, biology and genetics;
- Business activities and managerial practice;
- Activities with detrimental consequences for the maintenance and conservation of the physical and social environment of humans; and
- The creation of an organised and just society and division of privileges in society.

The activity aims of the Centre are:

- To initiate, undertake and publish multi- and interdisciplinary baseline research on ethical problems; and
- To make information available and give advice to institutions that are responsible for policy formulation and legislation.

The Centre consists of four units, namely the Unit for Bioethics, the Unit for Environmental Ethics, the Unit for Business Ethics and the Unit for Social and Political Ethics.

The Unit for Bio-ethics

The Unit focuses on problems that arise from the application of values and ethical norms in the research and therapeutic procedures of modern medical science.

Research is done on problems related to the distribution of health care as well as on Aids, abortion, reproductive technology, euthanasia, genetic manipulation, etc.

The Unit is active in two sections – one on the Stellenbosch campus and the other on the Tygerberg campus. The latter offers courses on medical research ethics and provides consultation services.

The Unit for Environmental Ethics

The main objective of this Unit is research and critical discussion of the application of ethical norms on environmental problems that arise within South Africa as a developing country. The Unit strives to stimulate a sensitivity to the importance of ethical principles in decision-making on the terrain of environmental management, and it endeavours to create greater co-operation between academic, labour and interest groups on environmental problems.

The Unit does research, provides policy advice, presents courses for extra-university institutions and organises discussions on environmental issues and values.

The Unit for Business Ethics

This Unit focuses on the needs and training of South African managers. Business Ethics is a compulsory course in the MBA programme of the Business School of Stellenbosch University and is included in most of its service programmes.

Besides teaching, this Unit also undertakes research on ethical codes, case studies, the management of values and diversity, affirmative action, white-collar crime, etc.

The Unit for Social and Political Ethics (PROSPER)

PROSPER (Promoting Social and Political Ethics Research) focuses on research, teaching and public discussion on ethical issues related to decision-making, actions and policy in the social and political environment.

The Unit conducts research on ethical questions concerning social and political institutions, policy formulation, historical injustice, immigration, the acquisition and dissemination of knowledge, the role of technology, and the concepts by means of which we reason about these questions.

3. Centre for Comic, Illustrative and Book Arts (CCIBA)

History

The Centre, which was established in 2009, is an interdisciplinary research, teaching and service institute based in the Department of Visual Arts.

Objectives

The Centre involves various dimensions of Comic, Illustrative and Book Arts with the following goals:

- To provide a meaningful contribution to the development of research and publishing in these disciplines.
- To improve the quality of teaching, research and service in these fields at Stellenbosch University, in order to position the University as the leading university in this field in South Africa, and as a recognised centre of excellence in these disciplines.
- To improve public perception of Comic, Illustrative and Book Arts in South Africa, and to improve the international profile of South Africa in these disciplines.
- To support the development of South African cartoonists, comic artists and illustrators through the organisation and development of appropriate exhibitions, publications and training courses, as well as other educational, networking and mentoring opportunities.
- To facilitate collaborations and dialogues with comic artists and illustrators in other countries, especially in the SADC region.
- To provide a national forum and a range of services and resources to South African comic artists and illustrators.
- To generate the necessary revenue to accomplish these aims through fundraising and business activities.

- To establish a permanent collection and Archive of South African comic, illustration and book Arts based at the Stellenbosch University Library and Museum.
- To identify problems and needs in the above-mentioned areas with a view to develop, promote and sustain these disciplines nationally and internationally.

4. Centre for Community Psychology Services

History

The Centre for Community Psychological Services is made up of two units, the Unit for Psychology and the Unit for Educational Psychology, which respectively are situated in, and function within, the Department of Psychology and the Department of Educational Psychology.

Objectives

The aims of the Centre are:

- The delivery of psychological services to, and in co-operation with, the community;
- The use of such services as training opportunities for postgraduate students; and
- The use of such services to create research opportunities for members of staff and students in the Departments.

Contact details

For more information, contact us at crpet@sun.ac.za or 021 808 2944/2696.

5. Centre for Geographical Analysis (CGA)

History

The Centre for Geographical Analysis (CGA) is a research and service institution of Stellenbosch University based within the Department of Geography and Environmental Studies.

Objectives

The objectives of the Centre are:

- To conduct basic and applied research on environmental, urban and regional problems through utilisation of geographical-analytical methods;
- To provide a service to the community by undertaking research and training on request from private and public institutions.

The CGA specialises in the application of geographical information systems, satellite remote sensing and other geographical-analytical techniques in carrying out its research, training and service-provision functions.

Contact details

For more information, contact Prof A van Niekerk at avn@sun.ac.za or 021 808 3101.

6. Centre for Knowledge Dynamics and Decision-making

History

The Centre performs interdisciplinary research, service, marketing and networking activities under the auspices of the Department of Information Science and reports to the Faculty of Arts and Social Sciences.

Objectives

The Centre focuses on the various dimensions of the dynamic in modern society in general and organisations in particular through which information is created, interpreted and converted into meaningful knowledge and productive decision-making.

Examples of these dimensions are:

- Hermeneutics
- Sense-making and decision-making in organisations
- Values and value systems
- Knowledge management

- Electronic decision-making support
- The learning organisation and organisational design
- Knowledge creation and leadership

The Centre performs its task through dedicated research; relevant network creation (both inside and outside the University context) and strategic partnerships with universities and non-university institutions; services as needed; and the market-related offers of selected knowledge products.

Contact details

For more information, visit us at www.su.ac.za/en/faculties/arts/departments/information-science or contact Dr DB le Roux at informatics@sun.ac.za or 021 808 2025.

7. Centre for Regional and Urban Innovation and Statistical Exploration (CRUISE)

History

The Centre for Regional and Urban Innovation and Statistical Exploration (CRUISE) is a research unit based within the Department of Geography and Environmental Studies. The Centre was established in 2009.

Objectives

The Centre's teaching and research aims are the following:

- To understand how cities work as instruments of social and economic networks, locally and internationally, and what the data and research requirements are for informed urban development policy-making in those fields;
- An overall understanding of the options that are available for service provision in the urban environment in the developed and developing world and creative ways in which it could be expanded or improved upon;
- How cities and city systems can be used for economic growth and for the creation of employment opportunities;
- To understand the planning approach to urban and regional development in South Africa and how urban management is approached differently in other parts of the world;
- To develop the skill of identifying and applying appropriate techniques for the study of different kinds of human activities and the ability to correctly judge what the data requirements are for such analyses;
- To understand the application range of different geographical information technologies designed for socio-economic spatial analysis and decision-making;
- To develop the skills of oral and printed communication techniques and how to utilise modern electronic hardware and software as instruments of communication; and
- To conduct basic and applied urban system-related research.

Contact details

For more information, contact Dr D du Plessis at ddp@sun.ac.za or 021 808 3104.

8. Centre for Research on Evaluation, Science and Technology (CREST)

History

The Centre for Research on Evaluation, Science and Technology is a research institution of Stellenbosch University. The Centre was established as a research centre on the 1st of January 1995 in the Faculty of Arts and Social Sciences. In January 2010 it also became an academic department within the same Faculty.

Objectives

The objectives of the Centre are:

- To conduct research on the nature of science and technology with specific reference to science and technology policy in South Africa and Africa;
- To conduct research on, and improve, the "meta-fields" of methodology and sociology of science.

These objectives will be realised by:

- Research on the emergence of interdisciplinarity in the sciences;
- Research on the methodology of the social sciences;

- Research on the sociology of science with a specific focus on science policy studies;
- Workshops and conferences on methodology, sociology of science and science policy;
- A directed publication programme whereby the research findings of the Centre are published as widely as possible;
- An active programme of local and international networking.

Since the main objective of the Centre, to engage in meta-science studies, is interdisciplinary by definition, the Centre aims to work in cooperation with other scientific disciplines wherever possible.

The Centre is managed by an advisory committee and answers to the Faculty Board of the Faculty of Arts and Social Sciences.

9. HUMARGA

History

HUMARGA (the Computer Users' Area for the Humanities) is used by students of the Faculties of Arts and Social Sciences, Education, Law and Theology. There are computer facilities at each of these faculties, and specialised equipment and software at the Departments of Visual Arts, Geography and Environmental Studies, Journalism and Music. The main facility in the Arts and Social Sciences building opened in 1999.

Objectives

The management strives to make work areas and technology available to provide students with optimal and uninterrupted access to electronic resources and to offer electronic class rooms and support services that make a proven contribution to teaching. These services include network space, e-mail, internet, multipurpose printers, specialised software and the latest technology.

HUMARGA strives to make cutting-edge technology available in a sustainable manner, so as to help our students achieve their goals.

The help desk is at the main facility in the Arts and Social Sciences Building (tel. 021 808 2129, humarga@sun.ac.za) and is open during office hours, while the general computer users' area is available 24 hours a day. Strict access control measures are employed to ensure the safety of students.

HUMARGA is as far as possible accessible to persons with disabilities and co-operates closely with the Office for Students with Special Learning Needs and the Lombardi Braille Centre, which is situated at HUMARGA. The Lombardi Braille Centre can also be contacted at braille@sun.ac.za.

10. Research Alliance for Disaster and Risk Reduction (RADAR)

History

The Research Alliance for Disaster and Risk Reduction (RADAR) is a research and service institution of Stellenbosch University based within the Department of Geography and Environmental Studies.

Objectives

RADAR's objectives are to:

- Offer academic and professional disaster-risk-related programmes and modules.
- Produce and disseminate research that improves understanding and management of disaster risks.
- Advance disaster risk awareness through training, policy advocacy and strategic continental engagement.
- Establish partnerships and build networks with relevant role players in disaster and risk reduction.

Take note that timetable information for second-year Spanish (to be offered from 2027) is not available yet. Further exclusions may therefore result.

Additional exclusions may occur with subjects from other faculties. You should check the timetable for these.

Take note that additional clashes on the timetable may emerge, and that you must double check that your timetable is indeed possible in a given year.
